## Financial sustainability – ensure continuous revenue

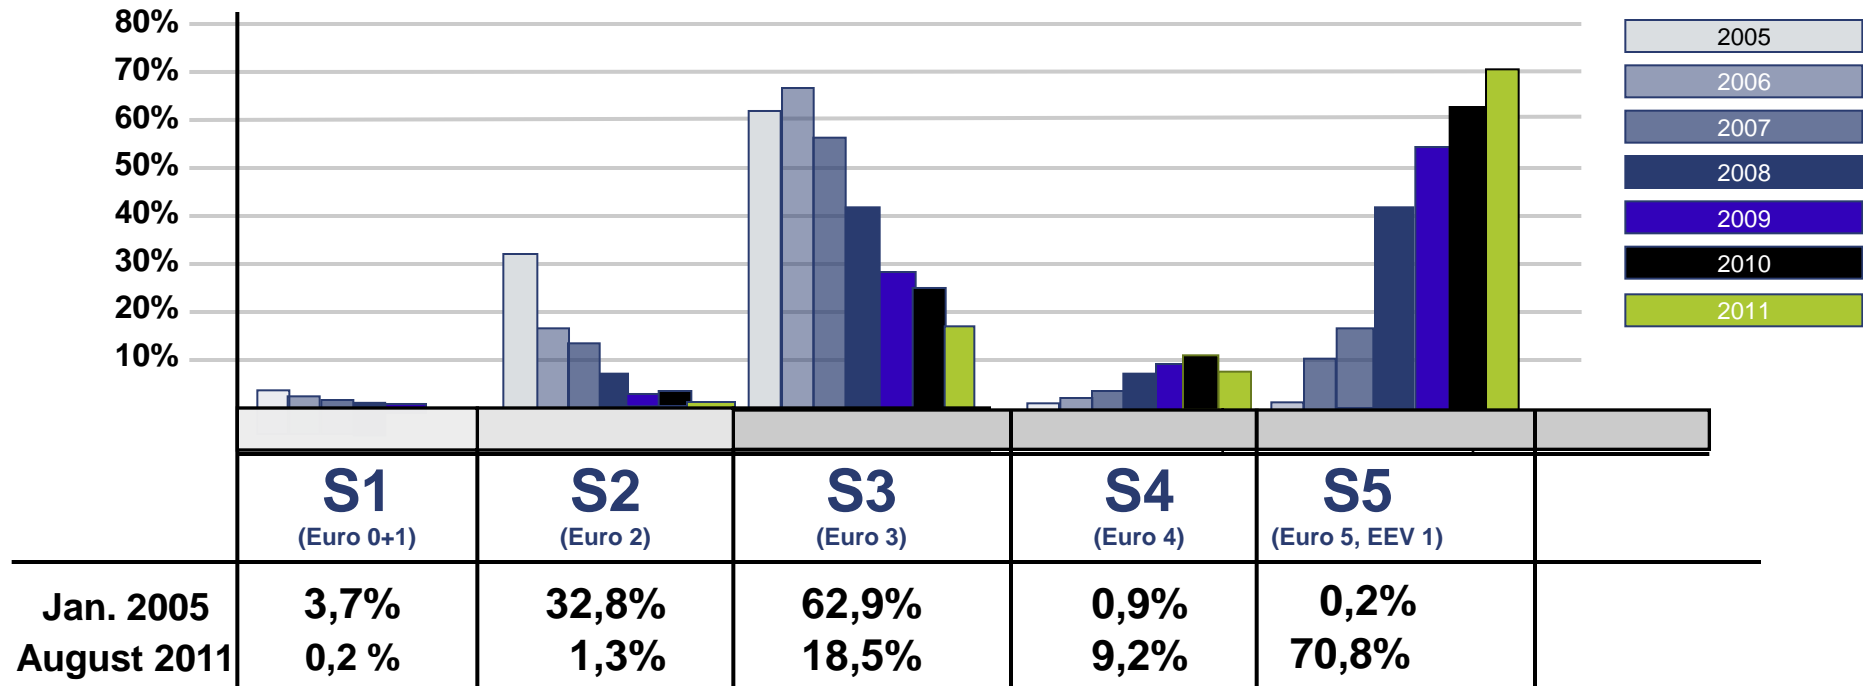

2005	€ 2.87 billion
2006	€ 3.08 billion
2007	€ 3.36 billion
2008	€ 3.47 billion
2009	€ 4.41 billion
2010	€ 4.48 billion

**2005 to 08/2011 € 24.5 billion**

## Ecological sustainability – Positive effects of the toll

Kilometres driven by toll-liable trucks in the emissions categories S1 - S5

## Ecological sustainability – Positive effects of the toll

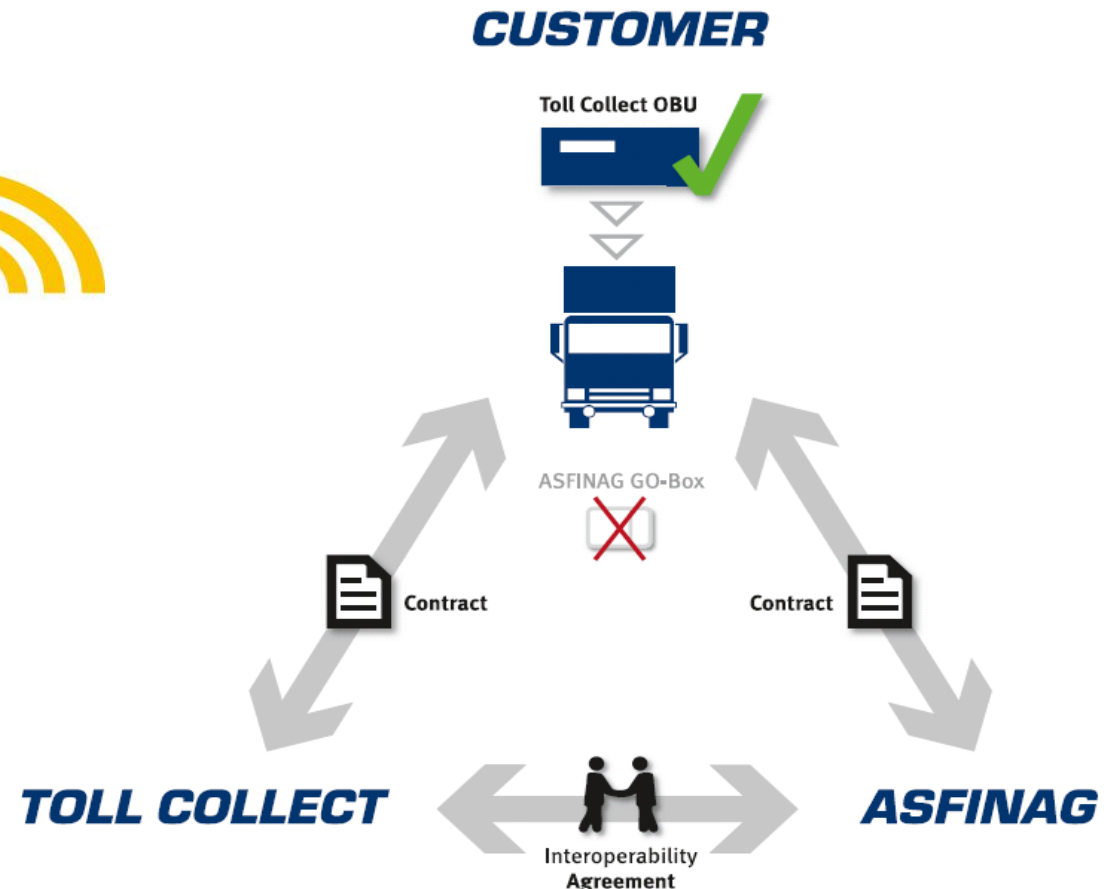

- Invisible toll collection system
- “Free-flow-system” - no need for toll gates
- No roadside infrastructure

## Technical sustainability – system meets advanced requirements

# TOLL2GO<sup>®</sup>

Interoperability – it works!

## System serves as a tool for financing and managing a modern traffic infrastructure
