

IBTTA AUSTIN

SEPT 14-17 2014

★ 82nd Annual Meeting & Exhibition ★

Customers & Collaboration PROGRAM

Hosted by

IBTTA
TOLLING. MOVING SMARTER.

Welcome to Austin

Dear Friends and Colleagues:

Welcome to Austin, Texas for our *82nd Annual Meeting & Exhibition*. We're right in the heart of a city and a state that is developing a modern multi-modal transportation system that includes toll-funded projects. You're going to hear about the latest and very best information on the policies, practices, technologies and business models that make the tolling industry a breakthrough success.

Not only is Texas the fastest-growing state in the U.S. but Austin is one of the fastest-growing metropolitan areas, with some of the heaviest traffic congestion you'll find in the country. These demands have led to a flood of invention: from wide adoption of all-electronic tolling and video tolling, to inclusion of public-private partnerships, the innovative use of priced managed lanes and full interoperability across the state, Texas has fulfilled its reputation for being larger than life.

The program for this year's Annual Meeting combines cutting-edge insights from the Texas experience with a deep dive into the wider world of tolling. With session tracks on technology and innovation, customers and communication, policy and politics, and financing and funding, you won't find a more comprehensive look at the new ideas and practices that have swept our industry in the last year. Special emphasis will be placed on the collaborative approach between agencies, the business community and key stakeholders that has accomplished this tremendous move forward.

It's my great pleasure to co-host this year's Annual Meeting in my home town, and I know all my colleagues at the Central Texas Regional Mobility Authority and Texas Department of Transportation are looking forward to meeting you and sharing their experiences throughout the next few days.

Enjoy the entire IBTTA event and again, welcome to Austin, the Live Music Capital of the World!

Kind regards,

A handwritten signature in black ink that reads "Mike Heiligenstein".

Mike Heiligenstein
2014 IBTTA President
Executive Director, Central Texas Regional Mobility Authority

About our Hosts

Central Texas Regional Mobility Authority

The Central Texas Regional Mobility Authority in Austin, Texas was formed in 2002 as the State of Texas' first Regional Mobility Authority. Its mission is to implement innovative solutions that reduce congestion and create transportation choices that enhance quality of life and economic vitality in the two county, Austin metro area. The Mobility Authority evolved into a vibrant, agile and highly effective organization. It operates the 11.6-mile 183A toll road in Williamson County and the US-290 East (Manor Expressway in Travis County) toll road. Construction is 50 percent complete on the Express/Managed Lanes along an 11-mile stretch of MoPac (Loop 1), in central Austin, and the Authority is collaborating with local, regional and state agencies and governments on developing five other transportation corridors in the Austin area. Its next project, the 183 South, will be a \$650 million 12-lane highway east of Interstate 35. www.ctrma.com

Texas Department of Transportation/Toll Operations Division

As a division of the Texas Department of Transportation, the mission of the Toll Operations Division is to improve mobility and safety through the development and operation of a safe, reliable and cost-effective system of toll roads using alternative financing and delivery methods to accelerate projects. www.dot.state.tx.us

HONORARY & SUSTAINING MEMBERS

2014 HONORARY MEMBERS

Jordi Graells

Jordi Graells is the President for Abertis USA Corporation. Educated as Civil Engineer, Graells leads the toll road development of Abertis in North America, and serves on several Boards of the Abertis companies in the United States, the Americas and Europe. His activity on toll road development and operation for more than 30 years includes significant assignments in the United States, Argentina, Spain and France. In November 2011, the American Road and Transportation Builders Association (ARTBA) awarded Jordi Graells as *Private Sector Entrepreneur of the Year* in the US for his key role in the closing of the PR-22/PR-5 deal in Puerto Rico. Jordi previously chaired the SANEF Board Operations Committee and served as IBTTA's president in 2012.

Jordi is a native of Barcelona, Spain.

Neil Schuster

Neil Schuster served as Executive Director of IBTTA for 16 years. At IBTTA, he launched the organization's first strategic plan, created an electronic toll collection program and established a government relations and advocacy program.

He recently retired as President and CEO of the American Association of Motor Vehicle Administrators. He started with AAMVA in August 2007. AAMVA is the not-for-profit association representing motor vehicle and law enforcement agencies in North America.

Before joining AAMVA, Schuster was President & CEO of the Intelligent Transportation Society of America (ITS America) for six years, a non-profit association whose members constitute a broad range of public and private sector interests pursuing safe and congestion-free travel through safety and other technologies that connect drivers and vehicles with infrastructure systems. He revamped ITS America's operations during a time of change and assisted the organization in a major Board and committee governance restructure.

TOLL EXCELLENCE AWARDS

TOLL EXCELLENCE AWARDS

Monday, September 15, 2014
8:30am – Noon
Governor's Ballroom

Congratulations to the 2014 Toll Excellence Award winners! Join your colleagues below as they are presented with awards in each of the five toll excellence award categories. One of the entries will be awarded the prestigious President's Award for Excellence – but that decision remains a secret until Monday morning. Don't miss hearing about all of these extraordinary projects.

And the winners are...

ADMINISTRATION & FINANCE

AGENCY: NEXCO-Central
PROJECT: Shin Tomei Expressway Project

The Shin Tomei Expressway runs on the straightest possible line through mountainous terrain. NEXCO-Central used state-of-the-art design and construction techniques to protect genetic diversity in the project area, incorporating design structures that would help prevent landslides and protect local ecosystems. The project relied on an innovative excavation method to build the large, cross-sectional tunnels the roadway required, and introduced a new, compact bridge design that featured long-span, lightweight superstructures.

CUSTOMER SERVICE & MARKETING OUTREACH

AGENCY: North Texas Tollway Authority
PROJECT: Toll Enforcement Remedies – Equity of Toll Payment

The objective of North Texas Tollway Authority's Toll Enforcement Remedies Program was to ensure equitable payment by all toll road drivers and guarantee fairness to the 92 percent of customers who pay for their use of the region's toll roads. The Tollway Authority grounded the three-year project in a commitment to fairness and meaningful consequences for drivers who routinely use the agency's toll roads without paying for their use. In 2012, the Tollway Authority launched a communications and outreach project to encourage toll payment and build support for tougher toll enforcement legislation. The three-pronged strategy included a "Pay Up" education campaign targeting toll scofflaws, legislative education supported by key strategic partnerships and alliances, and legislative action to formally define habitual violators, then block their vehicle registrations and ban them from toll roads until their tolls are paid.

Thanks to the Toll Enforcement Remedies Program, millions of dollars collected from unpaid tolls help the North Texas Tollway Authority maintain high-quality roads and invest in much-needed transportation infrastructure across the region. The three-month grace period at the beginning of the program resulted in more than \$9 million in collections and payment plans, boosted enforcement awareness among all TollTag and ZipCash customers, improved the consistency of toll enforcement remedies across Texas, and strengthened the Tollway Authority's relationship with stakeholders and legislators

SOCIAL RESPONSIBILITY

AGENCY: Oklahoma Turnpike Authority
PROJECT: Tornado Disaster Recovery and Clean-Up

On May 19 and 20, 2013, several tornados touched down in central Oklahoma, causing widespread destruction and devastation. A deadly EF5 tornado tore through heavily populated Moore, OK, and hit smaller communities north and east of Moore. The damage inflicted by the tornados included 24 dead, 377 injured, and 3,937 homes and businesses destroyed. Following a declaration of emergency by President Obama and Oklahoma Governor Fallin, The Oklahoma Turnpike Authority mobilized the human resources required to get the job done quickly and efficiently. Crews putting in long hard days under tough conditions worked to clean up the aftermath of the storms and restore key transportation corridors, enabling emergency responders and volunteers to get to the scene of the devastation. When the situation called for more or different equipment, field managers had the authority and ability to buy what they needed.

The Authority's efforts earned praise from the Governor, Secretary of Transportation, the Department of Emergency Management, affected communities and local media.

TECHNOLOGY

AGENCY: Roads & Transport Authority, Dubai
PROJECT: Salik Toll System Expansion – A Model of Tolling Excellence

Salik, meaning open or clear in Arabic, is Dubai's all-electronic, Open Road Tolling (ORT) system. The primary objective of the Salik ORT System Expansion was to reduce traffic congestion on the city's main roads by adding new tolling points to encourage diversions to alternate routes. The project involved construction of three new electronic toll collection locations with six new gates, four on Ittihad Road and two on the Airport Tunnel corridor. The expanded system uses video capture to identify toll violators across up to seven lanes of fast, free-flowing traffic. Roadside processing systems have been optimized to manage the enormous volume of real-time imaging. Success factors combined to provide Salik users with the world's largest open-road, multi-lane, free flow tolling point, the world's widest single-direction free flow tolling zone, at more than 44 meters or 144 feet, the world's first 870 MHz toll system and complete over-the-road maintenance capability inside cladded gantries, so that road closures are never needed for routine maintenance. The Authority has sold more than 620,000 Salik tags since the system opened in April, and processes 1.5 million transactions per day.

TOLL OPERATIONS, MAINTENANCE & ENGINEERING

AGENCY: Autostrade per l'Italia S.p.A
PROJECT: Effectiveness and Efficiency in Winter Operations (EWO) Project

In 2011, Autostrade per l'Italia S.p.A launched a three-year initiative to improve procedures and operational efficiencies in winter operations. Key performance indicators for the project included 90 percent reductions in snow-related traffic gridlock and congestion, and improved communications of highway conditions to the travelling public. Their achievements include: a 93 percent reduction in congestion due to snow, from 240.4 hours in 2010/2011 to 17.6 hours in 2013/2014, a 100 percent reduction in traffic gridlock due to snow, from 40.7 hours in 2010/2011 to 0 hours in 2012/2013 and 2013/2014, a 91 percent reduction in situations where customers had insufficient information, from 69 in 2010 to six in 2013, 20 percent reduction in salting costs 75 percent reduction in winter maintenance costs. Because of these successes, in 2013, Autostrade per l'Italia S.p.A received ISO 9001 certification for winter operations management

MEETING PLANNING GROUP

Chief Meeting Organizers

FAST FACTS

BADGES

Badges are required to gain entry into all sessions and events. In consideration of other attendees, please wear your name badge to all scheduled functions.

White: Delegate (Member)
Orange: Delegate (Non-member)
Blue: Companion/Guest
Green: Exhibitor
Yellow: Media

COMPETING EVENTS

It is against IBTTA policy for other organizations to schedule events or meetings at any time during the program.

CERTIFICATION MAINTENANCE (PE)

IBTTA will forward a certificate of attendance to all professional engineers who sign the attendance form at the IBTTA Registration Desk.

CONSIDERATIONS

During the meeting, please silence all cellular phones and PDAs and take side conversations outside of the room.

DRESS

Business or business casual is encouraged for all sessions. Dress for other IBTTA events is noted next to the event description.

INTERNET ACCESS

Complimentary wireless internet is included in the room rates of the Hilton Austin, Marriott Courtyard Austin Downtown and the Hilton Garden Inn Austin Downtown.

Complimentary WiFi is also available in the Hilton Meeting Space courtesy of Cubic Transportation Systems, Inc.

WiFi Network Name: IBTTA Meeting WiFi

Password: CUBIC

Sponsored by:  **CUBIC**
Intelligent travel made real™

MEALS & EVENTS

Badges are required to attend all meals and events, including the Opening and Closing Events and are only included in the Delegate, Exhibitor and Companion/Guest registration fees.

Breakfast on Monday will be served in the Governor's Ballroom Foyer and Room 406, 408, 410 and 412 and will be served in the Governor's Ballroom Foyer on Tuesday and Wednesday. Lunches will be served in the Exhibit Hall on Monday and Tuesday.

MEDIA

Credentialed members of the media are permitted to attend sessions only and can be identified by yellow badges.

MEETING APP

Download the IBTTA Meetings app (available on the App Store, Google Play and Amazon Appstore) to view updated bios, photos, meeting room, notifications and more. See page 39 for all the details.

MEMBER PUBLICATIONS AND COLLATERAL

All members of IBTTA are welcome to place their publications in the registration area.

NEW ATTENDEES

First-time attendees will have an aquamarine ribbon attached to their badge. New IBTTA members will have purple ribbons. Get to know your new colleagues and help introduce them to other IBTTA members.

PRESENTATIONS

PowerPoint presentations authorized for distribution will be available at www.IBTTA.org within two weeks following the meeting.

RECORDING OF SESSIONS

Personal recording of any session is strictly prohibited. IBTTA reserves the right to video and record sessions for purposes of on-demand viewing.

SATISFACTION SURVEY

Please help IBTTA improve future meetings by completing the survey that will be emailed to you following the meeting.

SPECIAL ACCOMMODATIONS

If you need special accommodations to fully participate in IBTTA events, please notify the staff at the IBTTA Registration Desk.

SPONSOR INFORMATION

Please support our generous sponsors by reviewing the material on the designated sponsor tables in the registration area.

SOCIAL TOURS

Please see the IBTTA Registration Desk for questions and tour availability. See page 18 for additional tour information.

THEMATIC REPORT

A written thematic report will be sent to all attendees and posted in the Events section of the IBTTA website.

The Annual Meeting Thematic Report will be a special report sponsored by sanef its.

Transportation for Evening Events

GETTING TO AND FROM AUSTIN CITY LIMITS AND RAINEY STREET

Austin City Limits and Rainey Street are just a short distance from the conference hotel. Below are three transportation options for you to consider.

1. Take a walk. Both ACL and Rainey Street are just a half-mile from the Hilton hotel. There will be people to help show you the way to both events.
2. Jump in a Pedicab. They will be circulating all evening for both events.
3. Hop on a shuttle bus (ACL) or an electric cab (Rainey Street). They will be circulating throughout the evening.

Questions? Visit the IBTTA Registration Desk.

IBTTA Tour Transportation Schedule

Please meet at the water wall in the Hilton hotel lobby. Name badges are required for all tours.

SUNDAY, SEPTEMBER 14

	Meet	Depart
City Tour: Austin by Motorcoach	8:00am	8:30am
Technical Tour: Central Texas Regional Mobility Authority – MoPac Improvement Project	8:30am	9:00am

MONDAY, SEPTEMBER 15

Social Tour: A Day in Hill Country – Wine & BBQ	10:00am	10:30am
---	---------	---------

Additional information on tour availability can be found at the IBTTA registration desk.

KEYNOTE SPEAKERS

Doug Stephens
Retail & Consumer Futurist

Monday, September 15, 2014
11:00am – Noon

Governor's Ballroom

Doug Stephens is one of the world's foremost retail industry futurists. His intellectual work and thinking have influenced many of the world's best-known retailers, agencies and brands including Target, Home Depot, Disney, Crayola, WestJet, Citibank, Razorfish and Air Miles.

Before founding Retail Prophet, Doug spent 20 years in the retail industry, holding senior international roles including the leadership of one of New York City's most historic retail chains.

Doug is the author of the ground breaking book *The Retail Revival: Re-Imagining Business for the New Age of Consumerism*. He is also the consumer technology contributor on the acclaimed television series *App Central TV*, as well as the retail contributor for *CBC Radio Canada*. Doug also co-hosts the popular web TV series, *The Future In Store* and sits on the board of the *Dx3* technology conference.

Sponsored by: **AECOM**

The Honorable Rick Perry
Governor of the State of Texas

Tuesday, September 16, 2014
8:30am – 8:45am

Governor's Ballroom

A fifth generation Texan, Governor Rick Perry has taken an extraordinary Texas journey, from a tenant farm on the rolling plains of West Texas to the governor's office of our nation's second largest state.

As the state's 47th and longest-serving governor, he is the first Texas A&M graduate to occupy the Governor's Mansion. Starting in the United States Air Force and continuing over two decades in elected office, Rick Perry has led a life of public service.

Governor Perry's administration has focused on creating a Texas of unlimited opportunity and prosperity by improving education, infrastructure, securing the border and increasing economic development.

Under Gov. Perry's leadership, Texas has consistently been ranked as one of America's best places for economic development and expansion due to low taxes, a predictable regulatory structure and sensible legal system. Since 2001, Gov. Perry has presided over \$17 billion in tax cuts and the largest lawsuit reforms in the nation.

As a result, Texas has created more than one million net new jobs and reigned as the nation's number one exporting state over the past six years. At last count, it was also home to more Fortune 500 companies than any other state.

CLOSING PANELS

2014 LEADERSHIP ACADEMY

Wednesday, September 17

9:00am – 10:30am

The Toll Road of the Future: Presented by the Leadership Academy Alumni

They're back. They're looking to the future. They're obsessively focused on the customer.

Through a series of informative (and possibly amusing) skits produced by Leadership Academy alumni, they will demonstrate their vision of the new and improved toll road. The session was wildly popular last year, they move to the main stage where four teams will paint a compelling vision of what toll roads will look like in the future.

Leadership Academy Class of 2014

The competition will be fierce. There will be voting! Prizes will be given! You won't want to miss this opportunity to see the tolling industry's future leaders imagine the changes that will occur on their watch.

Wednesday, September 17

11:00am – Noon

Staying Competitive in the 21st Century: A Moderated Roundtable

Join Editor-in-Chief and CEO of the Texas Tribune, Evan Smith, as he moderates and discusses the future of transportation with former HUD Secretary Henry Cisneros and author and P3 expert Mary Scott Nabors. The session will cover many topics including how the transportation industry has seen massive shifts in almost all areas of discipline: from financing to technology to how we see our projects being part of a larger world of multi-modal alternatives.

Following the session, Mary Scott will have a limited number of books available for attendees. Don't miss this great opportunity to wrap up the conference with these insightful and forward-thinking leaders.

Apply to be part of the 2015 Leadership Academy

Applications for the class of 2015 are available now at www.IBTTA.org. The deadline to apply for admission is November 1, 2014. The IBTTA Leadership Academy will be held in Washington, DC, February 8 through February 13, 2015. Pick up a Leadership Academy brochure at the IBTTA Registration Desk or online at www.IBTTA.org.

EVENT HIGHLIGHTS

Special Program Highlights

Welcome Reception For New Members, First-Time Attendees & Sustaining Members

Sunday, September 14, 2014
3:30pm – 5:00pm
Included in registration fee
Meeting Room 406

If you are a new IBTTA member or if this will be your first-ever IBTTA Annual Meeting, make the most of your experience and attend this informal reception. Meet IBTTA Officers, Board of Directors, Sustaining IBTTA members and staff, and learn how to take advantage of your IBTTA membership and make the most of your Annual Meeting experience!

See the list of Sustaining Members on page 5.

Mindfulness Meditation

Monday-Wednesday
7:00am – 8:00am
Included in registration fee
Meeting Room 402

This is the second year that IBTTA has offered morning Mindfulness Meditation. Mindfulness Meditation is a way of slowing down from our hectic lives and cultivating the ability to pay attention to the present. It has received an enormous amount of media attention these past few years and this hour will be an opportunity to experience it firsthand. Larry Yermack, a trained meditation teacher with 13 years of experience, will lead these sessions. No experience or special clothing are necessary. The group will meet in business attire and head to breakfast afterwards.

Opening Event

Austin City Limits – Moody Theater

Sunday, September 14, 2014
6:30pm – 10:00pm
Included in registration fee
Attire: Casual and comfortable
Transportation: see page 11

Great Music. No Limits.
Austin City Limits is an American public television music program recorded live

in Austin, Texas and is the longest running music series in the country. It showcases popular music legends and innovators from all genres and is filmed in the Moody Theater of Austin City Limits venue. Our opening event will take place in the Moody Theater, which is the largest music venue in Austin. Join us for an evening of spectacular entertainment including the well-known band, the BoDeans. Enjoy a great time with friends and colleagues as we open the 82nd Annual Meeting. Don't miss an evening to remember!

Sponsored by:

Evening Reception with Exhibitors

Monday, September 15, 2014
5:30pm – 7:00pm
Included in registration fee
Austin Grand Ballroom

The reception in the Exhibit Hall takes place Monday afternoon following the sessions. This is a perfect opportunity to wander through the exhibit hall without having to run off to your next session. Spend some dedicated (but fun) time learning about the latest products and services, reconnecting with suppliers and consultants and meeting lots of new companies who have ideas for improving your business.

Sponsored by: 

**NEW
EVENT**

EVENING EVENT

Rainey Street

Monday, September 15, 2014
7:00pm – 10:30pm
Included in registration fee

WHAT TO BRING

- Bring a valid form of identification.
- Wear your IBTTA badge.
- Wristband – You'll receive this with your badge at registration.

You must have these to gain access to the event.

WHAT TO WEAR

Dress for the weather in very casual clothes. And be aware that the sidewalks are unpaved in certain parts. High heels are **not** recommended.

Rainey Street is walkable from the hotel; see page 11 for further details on transportation.

Immediately following Monday's Exhibitor Reception, join your friends at the Rainey Street Event. Visit each IBTTA member-hosted house on Rainey Street, collect a host sticker and place it in the corresponding box on the Rainey Street program (you received this at registration). At the end of the night, fill in your name and email on the Rainey Street program and then turn it in at the Rainey Street Info/Help Desk (or the IBTTA Registration Desk on Tuesday morning) and you will be entered to win your choice of either two free registrations for next year's IBTTA 83rd Annual Meeting in Dublin, Ireland or an iPad Air!

**NEW
DAY**

Closing Reception & Banquet Governor's Ballroom, Hilton Hotel

Tuesday, September 16, 2014
7:00pm – 11:00pm
Included in registration fee

Attire: Cocktail and dancing shoes. Ties optional.

After a wonderful week together, we'll continue the tradition of closing our Annual Meeting & Exhibition with a reception and dinner. If you've attended this closing event before, you know that it's always a lot of fun; if this is your first time joining us, you'll quickly learn that it's always special. This year's banquet will feature dancing and music from Tessa Lou & The Shotgun Stars. Great food will be plentiful. We hope to see you there to thank you and to hear your reflections about the meeting. www.tessylouwilliams.com

Note: Download the IBTTA app for updated information.

Lauren Albright

Tuesday, September 16 | 10:30am

Lauren Albright is the Community Manager for Carma Austin. Lauren leads marketing, community outreach, and customer service for the local pilot that is testing mobile technology

as a means for verifying and encouraging carpooling behavior on toll roads. Lauren has six years' experience in brand marketing and customer retention for both the transportation and renewable energy sectors. She is a University of Texas alumna and a nine-year Austinite.

James Anderson

Tuesday, September 16 | 2:00pm

Jim Anderson is currently the Vice President, Smart Cities United States for Schneider Electric located in Nashville, TN. He is responsible for leading the Smart Cities initiative in the U.S.

bringing efficiency and sustainability solutions to cities and municipalities. He has been actively engaged in the thought leadership around smart cities and has spoken on several panels on this topic in events such as Meeting of the Minds and UN-Habitat, and is a contributor to many of the industry research firms.

Hope Andrade

Tuesday, September 16 | 4:00pm

Hope Andrade is the Commissioner Representing Employers for the Texas Workforce Commission (TWC), appointed in 2013 by Governor Rick Perry. Commissioner Andrade serves

as the advocate for more than 485,000 Texas employers ensuring that employers' interests are considered in all Commission actions. Before her appointment to TWC, Hope served as Texas' 107th Secretary of State from July 2008 to November 2012. As Secretary of State, Hope was one of six state officials in the Executive Branch of Texas state government. Hope was Texas' first Latina Texas Secretary of State and the fourth longest-serving Secretary in our state's history. She previously served as a Commissioner on the Texas Transportation Commission from 2003 to 2008. Hope has been an entrepreneur and leader in the San Antonio business community for more than three decades. She has served in multiple leadership roles in San Antonio civic causes, including the Greater San Antonio Chamber of Commerce, the San Antonio Hispanic Chamber of Commerce, the Free Trade Alliance of San Antonio, United Way, the Board of Christus Santa Rosa, the San Antonio Symphony and the Board of Trustees for Our Lady of the Lake University.

Jeff Austin, III

Monday, September 15 | 2:00pm

Jeff Austin, III, member of the Texas Transportation Commission since October 2011, oversees statewide activities of the Texas DOT. Jeff is vice chairman of Austin Bank and Texas NA. He is

a board member of First State Bank in Athens, Capital Bank in Houston, and past president of First State Bank in Frankston. He is board member and past chair of Texas Bankers Association, board member of Bob Bullock Texas History Museum, member of American Bankers Association Government Relations Committee and Bank CEO Network, executive committee member and past director of Texas Lyceum, and board member, past president and scoutmaster of East Texas Area Council of Boy Scouts.

Joshua Baer

Tuesday, September 16 | 4:00pm

Joshua Baer helps people quit their jobs and become entrepreneurs. In 2008 he founded Capital Factory, a tech startup incubator and co-working space in Austin, Texas. Josh founded his first

startup in 1996 in his college dormitory at CMU and now teaches a class at the University of Texas for student entrepreneurs. Josh is the Chief Innovation Officer of Return Path and was recently recognized as the 2013 Austin Community Leader of the Year and a 2013 Henry Crown Fellow at the Aspen Institute. Joshua spends all day worrying about email so that you don't have to. He is an email marketing pioneer and the Founder of SKYLIST, UnsubCentral and OtherInbox. He has founded or invested in a dozen email startups and you can see his mark on about half of the email messages in your Inbox. Joshua received Computer Science and Information Decision Systems degrees from Carnegie Mellon University.

Brent Baker

Wednesday, September 17 | 9:00am

Brent Baker is a Vice President and Senior Project Manager with the strategic consulting group of Parsons Brinckerhoff. Brent's work specializes

in toll road project finance, revenue and expenditure forecasting, financial modeling, benefit-cost analysis and funding studies. His advisory and consulting experience covers highway, ferry, rail and transit projects for a wide range of public and private sector clients. He is one of the firm's experts in conducting toll feasibility studies from toll policy considerations to net revenue projections to financial analysis. Brent's recent work includes toll financial capacity assessments for price managed lane projects; project financial plan development and cash flow modeling; TIFIA loan applications; toll revenue and expenditure projections; and presentations to executive management, state legislators, and transportation commissioners.

Jim Barbaresso

Tuesday, September 16 | 10:30am

Jim Barbaresso is Vice President of Intelligent Transportation Systems for HNTB Corporation. He has more than 36 years of experience in transportation planning, traffic

operations, and ITS in both the public and private sectors. Throughout his career, Jim has demonstrated leadership in the development of emerging technologies, transportation safety, ITS deployment, and new concepts in transportation financing. In recognition of Jim's international reputation and leadership in Intelligent Transportation Systems, he was selected to chair the 2014 ITS World Congress, recently held in Detroit.

A.J. Bingham

Tuesday, September 16 | 4:00pm

A.J. Bingham is a consultant with Austin-based Strategic Partnerships, Inc. (SPI), a leading full-service government affairs and procurement consulting firm. Before joining SPI, he

was legislative director for one of Texas' top lobbying firms, representing private and public sector clients on a range of state and local policy matters. He has called Austin home for over 22 years and is highly involved in the community, serving on the boards of the Trail of Lights Foundation, LBJ Future Forum, and Young Men's Business League of Austin. He also serves as the Chair of Advocacy & Government Affairs for the Greater Austin Black Chamber of Commerce.

Kenneth Barr

Monday, September 15 | 2:00pm

Kenneth Barr is a consultant on governmental relations and public affairs with the Barr Consulting Group. He was appointed to the NTTA board of directors in May 2008. Kenneth was

elected mayor of Fort Worth four times and served in that capacity from 1996 until retiring in 2003. Before being elected mayor, he served three years as a city council member. He currently chairs the Development Committee of the Van Cliburn Foundation. He also serves on the boards of Plaza Medical Center, Greater Fort Worth Real Estate Council, Camp Fire USA Foundation and Scenic Texas. He is a past chairman of the North Texas Commission and of Fort Worth Sister Cities International.

Kathleen Bower

Tuesday, September 16 | 8:45am

As Vice President, Public Affairs, Kathleen Bower directs AAA's public affairs strategy and directs activities for the 53-million member organization, including government relations, traffic

safety policy and programs, public relations, association communications, community relations and international public policy. A 21-year veteran of the association, Kathleen has directed comprehensive public affairs initiatives to achieve AAA's goal of improving mobility and enhancing the safety of the traveling public. During her tenure, Kathleen has guided the federation's efforts to address distracted driving, improve child passenger, teen and senior driver safety, and represent motorists' interests relating to transportation and energy policy. Before coming to AAA, Kathleen worked on Capitol Hill as a legislative assistant to then-Congressman Bill Nelson (now a US Senator). Kathleen currently serves as an officer of the AAA Foundation for Traffic Safety Board of Trustees, the Public Affairs Council Board of Directors and Executive Committee, and previously on the University of Florida's College of Journalism's Public Relations Advisory Council.

Phineas Baxandall, Ph.D.

Tuesday, September 16 | 8:45am

Phineas Baxandall directs transportation programs and is a Senior Analyst at the national network of Public Interest Research Groups. Previously, Phineas worked at Harvard University's John

F. Kennedy School of Government where he assisted in directing the Taubman Center for State and Local Government. He taught policy and political economy for eight years at Harvard's undergraduate honors program in Social Studies. At U.S. PIRG, he has authored or co-authored dozens of reports, including a series examining the ongoing trend toward fewer vehicle miles travelled per person, and studies of transportation finance and public-private partnerships.

Gabe Brown

Tuesday, September 16 | 10:30am

Gabe is the founder of 520 or 90. Gabe wanted to find a better way to get to and from Seattle via the bridges so he pitched the idea at Startup Weekend and found an incredible team of people who

were willing to join him on a wild adventure to make a positive impact on the Seattle community of drivers.

SPEAKER PROFILES

Michael Burnett

Tuesday, September 16 | 10:30am

Michael Burnett has been the Chief Financial Officer in North America since August 2013. Before this role he was Transurban Group's General Manager Finance for six years. Before

joining Transurban he spent three and a half years at CSL (Australia's largest Pharmaceutical company) doing various Group and International roles. He completed his professional qualifications at PricewaterhouseCoopers in Melbourne, before being seconded to London, where he spent eight years before returning to Melbourne.

Brian Cassidy, Esq.

Tuesday, September 16 | 4:00pm

Brian Cassidy is the Managing Partner of the Austin Office of Locke Lord LLP. His practice focuses on the development of transportation and utility infrastructure by public and private

entities. He advises clients on complex procurements, public private partnerships, regulatory compliance and all aspects of the planning, design, financing, operation and approvals required for major infrastructure projects. He has been involved in the development of toll roads and non-tolled highways throughout Texas, and has been at the forefront of the development of legislation governing regional mobility authorities and the use of transportation reinvestment zones to fund infrastructure projects. Brian is Board Certified in Administrative Law by the Texas Board of Legal Specialization. Locke Lord is a full service international law firm with offices in Atlanta, Austin, Chicago, Dallas, Hong Kong, Houston, London, Los Angeles, New Orleans, New York, San Francisco and Washington, DC.

Collin Castle, P.E.

Tuesday, September 16 | 10:30am

Collin Castle has worked in the Michigan Department of Transportation (MDOT) Intelligent Transportation Systems (ITS) Program Office for the past 8 years. His current role is serving as the Connected

Vehicle Technical Manager with the Michigan DOT for the past three years, focusing on initiatives related to Connected Vehicle Infrastructure Design and Deployment, and Connected Vehicle data use for agency applications. This includes the analysis of the impacts of Connected Vehicle infrastructure and applications on safety, mobility and the environment. Colin is a registered Professional Engineer in the State of Michigan.

William Chapman

Sunday, September 14 | 1:30pm

William (Bill) Chapman is the CFO of the Central Texas Regional Mobility Authority (CTRMA). In this role, Bill is responsible for accounting, investments, debt issuance, other financing sources,

financial planning and investor relations. Previous to his current position, Bill held various positions with the City of El Paso with his final position CFO/Deputy City Manager. Bill has taught undergraduate and graduate level classes in accounting and finance at various universities since 1969. Bill serves on the board of Bella Vista Municipal Utility District, is President of TexSTAR a Money Market Fund for Texas Entities and was nominated for Best CFO in Central Texas in 2010 and 2011.

Henry Cisneros

Wednesday, September 17 | 11:00am

Henry Cisneros is Chairman of the CityView companies, which work with urban homebuilders to create homes priced within the range of average families. In 1981, Henry became the

first Hispanic-American mayor of a major U.S. city, San Antonio, Texas. He was subsequently elected to four terms. In 1992, President Clinton appointed Henry to be Secretary of the U.S. Department of Housing and Urban Development ("HUD"). After leaving HUD in 1997, Henry became President and COO of Univision Communications, the Spanish-language broadcaster which has become the fifth-most-watched television network in the nation. Henry currently serves on Univision's Board of Directors. He has served as President of the National League of Cities and as Deputy Chair of the Federal Reserve Bank of Dallas. He is currently a member of the Advisory Boards of the Bill and Melinda Gates Foundation and the Broad Foundation and was honored by the National Housing Conference as the "Housing Person of the Year." Henry sits on each of CityView's Investment Committees.

Will Conley

Tuesday, September 16 | 10:30am

Will Conley was elected Hays County Commissioner in 2004, serving the residents of greater San Marcos and the Wimberley Valley. Commissioner Conley has gained a reputation for

achieving forward-thinking solutions. As one of the fastest growing counties in the nation, Commissioner Conley pursued a bold agenda to improve Hays County roads and public safety, protect water quality and natural resources, streamline county government, and develop a long-term plan for future growth. As chairman of the Capitol Area Regional Transportation Planning Organization (CAMPO), Commissioner Conley represents Hays County's interests on a regional

level, working for long-term solutions to Central Texas' growing transportation needs. His ambitious work has made historic safety improvements to local roadways, constructed new bypasses and overpasses, and established transportation plans to prevent future traffic congestion. Commissioner Conley is a board member of the Austin-San Antonio Intermunicipal Commuter Rail District and Capitol Area Council of Governments. A small businessman, Commissioner Conley is president of Conley Enterprises, an auto services company in San Marcos, Texas.

Michael DeBacker, P.E.

Wednesday, September 17 | 9:00am

Mike DeBacker is the National Director of the Transportation Practice for Burns & McDonnell Engineering Company. In this role he is responsible for client development, strategic direction and

project execution. Mike has over 20 years of experience in transportation planning, design and technology for DOT, turnpike and municipal clients.

Glenn Deitiker

Tuesday, September 16 | 4:00pm

Glenn Deitiker is the president and CTO of BancPass and has more than 20 years experience in the toll collection industry. BancPass launched its toll payment processing system, PToll™ in

Jan. of 2013 Glenn founded Caseta Technologies Inc. in 1994, a company that develops electronic toll collection software. Renamed Schneider Electric, Caseta was sold to Telvent GIT S.A. in 2007. Deitiker is involved in a number of industry panels and boards including having served on the IBTTA Electronic Payment Systems (EPS) Workgroup and as an original founding Board member of the OmniAir Consortium. Glenn was the original author of the OmniAir EPSNIS paper and currently serves as the Executive Chair for the Electronic Payment Services Committee.

Steven Dellenback, Ph.D.

Monday, September 15 | 4:00pm

Steve Dellenback is an Executive Director of R&D at Southwest Research Institute in San Antonio, Texas. He is leading SwRI's efforts in transportation systems as well as intelligent vehicles,

where they have performed over a number of R&D in the areas Connected Vehicle and Autonomous Vehicle and Active Safety technologies for commercial, state government, federal government and military clients. SwRI has fielded eight different autonomous vehicle platforms along with assorted enabling technologies for commercial vehicle manufactures, the U.S. Army, Navy, and Marine Corps, as well as several European Ministries of Defense. He is active in a number of standards committees and sits on the Board of Directors for ITS America and chairs its Coordinating Council.

Willy Dommen

Tuesday, September 16 | 4:00pm

Willy Dommen is an executive in Accenture's infrastructure and transportation business. His primary responsibility is to lead the firm's entry into the North America Tolling Market.

He led the development and delivery on smart card, RFID and mobile payment assignments around the world, for both government and private industry, all of which started from the work he completed for Metropolitan Transportation Commission's Clipper (formerly TransLink®) program in the San Francisco Bay Area. Willy served as the hands-on advisor for the BART-Sprint mobile payment trial and was a leader for the Homeland Security Presidential Directive (HSPD) 12 initiative for several federal government agencies. In addition, Willy's client and project lists include development of national health care card programs, leading edge technology evaluation and strategy development and RFID strategy development. He continues to serve clients with resolving strategic and technical issues related to contactless smart card and mobile payments technology. Willy currently serves as the Chairman of the Board of Directors for the Smart Card Alliance.

Howard "Butch" Eley

Tuesday, September 16 | 8:45am

Butch Eley, Chief Executive Officer of Infrastructure Corporation of America, has spent his career creating positive change for communities through political and governmental venues at all

three levels of government. Butch began his career as a congressional assistant where one of his responsibilities was working with the U.S. House of Representatives Public Works and Transportation Committee. He later served as Chief of Staff in the Metropolitan Nashville Mayor's Office. He left the government sector in 1990 to start his own consulting firm, which specialized in helping companies do business with government. He founded ICA in 1998. Butch currently serves as Co-Chief Meeting Organizer for IBTTA's 82nd Annual Meeting in Austin. Additionally, he is a founding member of the industry trade organization AMOTIA (Association for the Management and Operations of Transportation Infrastructure Assets) and currently chairs their Legislative Committee.

SPEAKER PROFILES

Ed Emmett

Monday, September 15 | 2:00pm

Edward Emmett became Harris County Judge on March 6, 2007. A member of the Texas House of Representatives from 1979 to 1987, Judge Emmett was chairman of the Committee on

Energy, a member of the Transportation Committee, and represented the state on numerous national committees relating to energy and transportation policy. In 1989, President George H. W. Bush nominated Emmett as a Commissioner at the Interstate Commerce Commission. After being confirmed unanimously by the United States Senate, Judge Emmett served on the commission for three years. Prior to becoming county judge, he received international recognition for his work in transportation and logistics policy. Among his many other activities, Judge Emmett is director of Harris County's Office of Homeland Security and Emergency Management, chairman of the HGAC Transportation Policy Council and chairman of the Harris County Juvenile Board.

Mary Farrell

Tuesday, September 16 | 4:00pm

Mary Farrell is president of Information Logistics, a technology company located in New Jersey. Mary has been involved in technology for several decades. Before working with the

transportation industry, Mary was involved with systems design and software research and development for a variety of public and private sector entities including Bell Laboratories and the Navy Exchange Command. Her technology work over the years has spanned many industries including insurance, legal and for the past decade, the transportation industry. Her company has been focused in designing innovative technologies to serve the traveling public.

Saavan Gatfield

Tuesday, September 16 | 10:30am

Saavan Gatfield is Senior Director in Fitch Ratings' Global Infrastructure and Project Finance Group. His primary focus is on U.S. transport infrastructure and, in particular, on

the toll roads sector, of which he is team head. Before joining the U.S. transport team, Saavan worked for three years within EMEA transport and social infrastructure, covering a wide range of airport, port, toll road and rail transit credits as well as having responsibility for Fitch's EMEA social infrastructure ratings portfolio. Saavan has worked at Fitch Ratings since January 2005. Before joining the infrastructure team, he was a member of Fitch's structured finance group, working extensively on European commercial mortgage backed securities.

Before Fitch, Saavan spent several years working in various business and operational positions in retail sales, distribution and logistics as well as education in both the UK and Japan.

Virginia Goodin, P.E.

Tuesday, September 16 | 4:00pm

Ginger Goodin is a Senior Research Engineer, Texas A&M Transportation Institute (TTI). For 15 years, Ginger has led research in road pricing, particularly in the area of HOT lanes and express

toll lanes. Since 2007 she has conducted leading research on mileage-based fees at both the state and federal levels. Ginger is a registered professional engineer in Texas.

Jordi Graells

Tuesday, September 16 | 2:00pm

Jordi Graells is the President for Abertis USA Corporation. Educated as a Civil Engineer, Jordi leads the toll road development of Abertis in North America, and serves at several Boards

of the Abertis companies in the U.S., the Americas and Europe. His activity on toll road development and operation for more than 30 years includes significant assignments in the United States, Argentina, Spain and France. In 2008, Jordi led the consortium that was awarded preferred bidder status for the Pennsylvania Turnpike Lease and Concession, and, in 2011, the consortium that was awarded the concession of the PR-22/PR-5 toll road in Puerto Rico (Metropistas). In November 2011, the American Road and Transportation Builders Association (ARTBA) awarded Jordi Graells as Private Sector Entrepreneur of the Year in the US for his key role in the closing of the PR-22/PR-5 deal in Puerto Rico. He is a native of Barcelona, Spain. Jordi previously chaired the SANEF Board Operations Committee and served as IBTTA's president in 2012.

Diane Gutierrez-Scaccetti

Tuesday, September 16 | 2:00pm

Diane Gutierrez-Scaccetti is the Executive Director and Chief Executive Officer of Florida's Turnpike Enterprise. Diane is a proven leader with more than 20 years of toll road experience; she

previously served as Executive Director of the New Jersey Turnpike Authority, retiring after a 21-year career. Diane is active with IBTTA and serves on the Boards of the Alliance for Toll Interoperability and the Transportation and Expressway Authority Members of Florida and the Executive Board of the Florida Department of Transportation.

Rick Hartfiel

Tuesday, September 16 | 4:00pm

Rick Hartfiel joined Craig-Hallum as the Director of Investment Banking in 2005. He brings over 20 years of investment banking experience focused on emerging growth companies.

At Craig-Hallum, Rick has managed over 100 equity offerings (IPOs, follow-on offerings, registered directs and PIPEs) and M&A transactions. Before joining Craig-Hallum, Rick was a Managing Director at Dain, Rauscher, Wessels—a national investment banking firm covering technology, consumer and healthcare companies. Previously, Rick was an investment banker at Credit Suisse First Boston.

Adam Hauser

Tuesday, September 16 | 4:00pm

Adam Hauser is a member of the Meals on Wheels and More Board of Directors and Executive Committee and is a partner in the Austin office of Husch Blackwell LLP. Adam has been a

volunteer driver for MOWAM's Meal Delivery Program for over 25 years providing home delivered meals for vulnerable citizens throughout Greater Austin. In his leadership role, Adam helps set policy and support MOWAM's mission to nourish and enrich the lives of the homebound and other people in need through programs that promote dignity and independent living. In his legal practice, Adam sits on Husch Blackwell's Executive Board and serves as the Austin Office Managing Partner. A Real Estate, Development & Construction team member, Adam represents sellers, buyers, financial institutions, developers and equity investors in the acquisition, financing, development, leasing and sale of commercial properties. He also represents corporate clients in the management of their real estate assets.

Mike Heiligenstein

September 15 | 8:30am and 2:00pm

Mike Heiligenstein is the Executive Director of the Central Texas Regional Mobility Authority in Austin, Texas. The independent government agency was created in 2002 to design a modern,

regional transportation network for Central Texas. The Mobility Authority's current and future projects are key elements in a carefully planned, multi-modal transportation system designed to meet the diverse mobility needs of this fast-growing region. Mike has been with the Mobility Authority since its inception and has overseen the development of their first project, 183A in Williamson County. 183A is one of the first projects in the country to transition to all-electronic, cashless toll collection. The Mobility Authority recently opened the 290 Toll (Manor Expressway) project, and is constructing Express Lanes on MoPac (Loop 1). The Mobility Authority

is also collaborating with regional transportation entities to study six other planned expressways across Central Texas. To learn more about the Mobility Authority, visit MobilityAuthority.com. Mike currently serves as President of the International Bridge, Tunnel and Turnpike Association. He also serves on the advisory Board of the Texas A&M Transportation Institute as well as several other committees and working groups dealing with transportation issues. Before taking the helm at the Mobility Authority, Mike served the citizens of Williamson County for 23 years as a public official.

Jon Hockenyo

Monday, September 15 | 4:00pm

Jon Hockenyo is the President of TXP, an economic analysis and public policy consulting firm he founded in 1987. In his role as President, he is involved in managing the day-to-day operations

of the organization, performing technical analysis, and developing strategies for clients. He has also served as a resource witness on a variety of issues in front of city councils, state legislatures, and the U.S. Congress. Previous to TXP, Jon worked as an aide to a member of the British Parliament and worked on a Senatorial campaign in his home state of Illinois. Jon is currently a board member of American Bank of Commerce and has previously served on the Board of Directors for Capital Metro, the Board of the ARC of the Capital Area, and the Travis County Citizen's Advisory Council.

Robert Horr

Tuesday, September 16 | 4:00pm

Robert Horr, III has been Executive Director of the Thousand Islands Bridge Authority (TIBA) since January 2003. Before he was Deputy Executive Director and Director of

Administration & Operations. For the past 16 years, Rob has been responsible for the development, management and implementation of the annual operations and capital programs, as well as the general management and oversight of the day-to-day operations of the International Bridge System and Boldt Castle/Heart Island tourist attractions. Currently Rob is President of the U.S./Canada Public Border Operators Association, past Director and Chair of the IBTTA Foundation and Leadership Academy Board of Regents and Thousand Islands International Regional Tourism Development Corporation and the "Capital Corridor" Trade & Tourism Initiative. Rob served as President of IBTTA in 2013. Before joining TIBA, Rob was the Director of Human Resources for the George Junior Republic a residential treatment center for children and youth located in Freeville, NY. Rob has been active in public service holding two elected positions within his community, Justice of the Peace and Township Supervisor.

SPEAKER PROFILES

Will Huffman

Tuesday, September 16 | 2:00pm

Will Huffman is the Director of Customer Experience for Ambit Energy, one of the country's largest Retail Energy providers providing service to over 1 million customers

across 52 markets. In his role, Will ensures that all customers receive superior customer experiences across all of Ambit's many touch points through the use of Voice of Customer programs, independent consumer insight research and various customer engagement and loyalty platforms. Prior to Ambit Energy, Will led customer experience teams with two other Retail Energy providers with both yielding significant improvements in independent customer satisfaction studies and customer loyalty.

Greg Hulsizer

Wednesday, September 17 | 9:00am

Greg Hulsizer is Vice President of Transportation with Cambria Solutions, a Sacramento, California-based management and technology consulting company. Greg has more

than 30 years of executive and Board-level experience in leading high-profile public and private sector organizations and projects. Before joining Cambria, Greg led the construction, start-up and operations of California's two innovative public-private partnership toll roads – the SR91 Express Lanes in Orange County and the SR125 South Bay Expressway in San Diego. Greg was a founding member of the California Toll Operators Committee – a collaborative relationship among California's toll facilities. He has also authored key California tolling-related legislation and advised the Governor's and Legislative Analyst Office and legislative leadership on tolling related issues. In addition to his consulting, toll industry and public-private partnership experience, Greg's career also includes 18 years in public administration; serving as City Manager, Deputy City Manager Director of Community Development, Public Works and Redevelopment for three California cities.

Bobby Jenkins

Tuesday, September 16 | 4:00pm
September 16 | 4:00pm

Bobby Jenkins is owner of ABC Home & Commercial Services offering a wide variety of environmentally responsible, reliable and superior services to homes

and businesses in Texas, Oklahoma, Georgia and Florida. Bobby is has been active serving on many boards and committees throughout his career including as past chair of the Austin Chamber of Commerce. Currently he serves as a member of the board for United Way and is the current co-chair for the United Way Annual Campaign. In addition he serves as vice-chair of the Texas Higher

Education Coordinating Board; and is the co-founder and board chairman of Recognize Good and serves on the Transit Working Group for the City of Austin. Bobby is a graduate of Texas A&M University with a degree in business management.

Patrick Jones

Monday, September 15 | 8:30am

Patrick Jones is Executive Director and CEO of the IBTTA. Since assuming this position in 2002, Pat has built IBTTA into the principal advocate for toll-financed transportation and the leader in producing

high quality educational experiences for toll industry professionals. Under his leadership, IBTTA revitalized its premier journal Tollways, created the IBTTA Leadership Academy, and introduced many new programs including the Transportation Finance Summit, Violation Enforcement Summit, Special Summit on Open Road Tolling and its first workshops in South America, Australia and South Africa. Before IBTTA, Pat held senior management positions at the American Trucking Associations, the American Public Transportation Association and the Health Insurance Association of America.

Jason JonMichael

Tuesday, September 16 | 2:00pm

Jason JonMichael is the National Technology Leader at HNTB. With more than 23 years of specialized experience in transportation technologies, Jason brings national

experience over a broad range of award-winning projects. Having started his career in construction and systems integration, Jason brings valuable field proven insight. Jason is a recent graduate of IBTTA's Executive Leadership Development program, a member of the executive board of the OmniAir Consortium, ITS America's Safety Forum, Data and Information Systems Committee of TRB, and the Construction Management-Information Technology Committee of TRB and the ASCE Digital Project Delivery Committee.

Mike King

Tuesday, September 16 | 10:30am

Mike King has led the Kansas Department of Transportation and its 2,400 employees since being named Secretary of Transportation by Gov. Sam Brownback in March

2012. His duties expanded in July 2013 when he also became Director of the Kansas Turnpike Authority. The Hesston, Kan., native, whose private sector construction experience includes work on highways, bridges, pipelines and large infrastructure projects, has three priorities for Kansas transportation: safety, completion of the T-WORKS transportation program and support of

economic development. As a member of the Governor's Growth Team, Secretary King works closely with other state agencies to help Kansas seize economic opportunities. As KTA Director, Secretary King's goals are to grow ridership, improve customer service and facilitate regional electronic tolling interoperability. In August 2014, Secretary King was elected to a one-year term as president of the Mid America Association of State Transportation Officials. As head of the 10-state consortium, Secretary King will focus on the seamless, state-to-state movement of freight in the region. For more than 20 years, Secretary King owned King Enterprise Group, a central Kansas construction company, which he sold in 2012.

Joseph Kopser

Tuesday, September 16 | 10:30am and 4:00pm

Joseph Kopser serves as the Co-Founder and CEO of RideScout, a startup smartphone app created to increase transportation efficiency by getting people out of their cars and into other public, commercial, and private options. A West Point and Harvard Kennedy School graduate, Joseph served in the United States Army for 20 years, retiring in 2013 as a Lt. Col. His last assignment in the military was teaching Leadership and Strategy at The University of Texas at Austin. In addition to leading RideScout, Joseph is a Next Generation Project Texas Fellow at the Strauss Center at the University of Texas at Austin where he focuses on Energy Policy. He also serves on the Board of Directors at the CleanTX Foundation. Joseph's military awards and decorations include the Bronze Star, the Combat Action Badge, and the Ranger Tab.

Joseph Krier

Monday, September 15 | 2:00pm

For more than two decades, Joe Krier was a driving force 1987 through 2007, he served as President and CEO of The Greater San Antonio Chamber of Commerce. Under his leadership, the 2,000 member organization was the area's primary advocate for business, helping build a stronger, more broadly based San Antonio economy. Elected and appointed to various statewide and national leadership positions, Krier was the Founding Chairman and Board member of Texans for Safe Reliable Transportation, served as Chairman of the San Antonio Mobility Coalition (SAMCo) and was appointed by Governor Perry to both the Interim Study Commission on Transportation Financing and the Texas Department of Transportation Strategic Plan Task Force. November 7, 2013, Krier was appointed by the San Antonio City Council to fill the District 9 vacancy. He was later elected to the position in May of 2014.

Kristi Lafleur

Tuesday, September 16 | 2:00pm

Kristi Lafleur was selected as Executive Director by the Illinois Tollway Board of Directors in April 2010. She is the first woman to serve in this role in the Tollway's history. Kristi is responsible for managing the agency's day-to-day operations, overseeing its \$986 million annual budget and leading the nearly 1,600 employees in providing a safe, effective and efficient toll highway system for the Tollway's 1.4 million daily drivers. In 2011, Kristi and the Tollway Board successfully secured a new 15-year, \$12 billion capital program, Move Illinois: The Illinois Tollway Driving the Future. Move Illinois is the largest capital program in the agency's history and the largest of any toll road agency in the nation. Kristi serves on the IBTTA Board of Directors. She also serves on the Board of Directors of the Alliance for Toll Interoperability and on the Executive Board of the E-ZPass Group.

Sherri LeBas, P.E.

Tuesday, September 16 | 2:00pm

Sherri LeBas was appointed as Secretary of the Louisiana Department of Transportation and Development in February 2010 by Governor Bobby Jindal. LeBas is responsible for a more than \$1.7 billion annual budget and more than 4,200 employees across the state. Under her leadership, the agency has secured \$622 million in funding for I-49 North from the Arkansas line to I-220 in Shreveport, expanded the I-10 and I-12 corridors in the Baton Rouge, Slidell and New Orleans areas with an investment of \$429 million, and completed the \$1.2 billion expansion of the Huey P. Long Bridge. She is a member of the Association of State Highway and Transportation Officials (AASHTO) and the American Society of Civil Engineers. She was inducted into the Louisiana State University Department of Civil and Environmental Engineering (CEE) Hall of Distinction in 2011.

David Machamer

Monday, September 15 | 10:00am

David Machamer has been with the Oklahoma Turnpike Authority for over 24 years. In his position as Toll Operations Director, he oversees the PIKEPASS Electronic Toll Collection System and the Cash Toll Collection Operations. David has also served in many capacities within IBTTA and currently serves as Chair of the Awards Committee. David is also the current Chair of the Alliance for Toll Interoperability (ATI).

SPEAKER PROFILES

Maria Matesanz

Tuesday, September 16 | 4:00pm

Maria Matesanz is a Senior Vice President in Moody's Global Project Finance and Infrastructure Finance Group where she covers a portfolio concentrated in the transportation

sector. Maria is the lead analyst for the U.S. toll road sector and covers a portfolios of airports, ports and toll roads as well as other projects. Maria also serves as a Rating Committee Chair. Before joining the Global Project Finance Group in 2009 Maria was the Team Leader for the U.S. Public Infrastructure Team in the Public Finance Group for six years. Before joining Moody's, Maria was director of cash management systems for the New York City Department of Finance Treasury Bureau, and before that worked at a management consulting firm in New York. Maria is a member of the National Federation of Municipal Analysts and the Municipal Analysts Group of New York. Maria has received Smith's Research & Gradings awards for Transportation Revenue Bonds for the last three years.

Brewster McCracken

Tuesday, September 16 | 2:00pm

Brewster McCracken is President and CEO of Pecan Street Inc., a research and commercialization institute focused on the utility industry headquartered at The University of Texas. In July 2014,

Time described Pecan Street's work as "the most extensive energy-tracking study in U.S. history... That kind of data is unprecedented in the electricity industry... The Pecan Street team is already using it to upend long-held theories about electricity use." In 2013, Smart Grid Today named him one of the nation's "50 Smart Grid Pioneers" and GreenBiz.com named him to its VERGE 25 list of 25 U.S. smart grid leaders. He is the author of numerous research reports on customer energy use.

Timothy McGuckin

Tuesday, September 16 | 4:00pm

Tim McGuckin has been active in the transportation policy and technology community for nearly two decades and has founded associations and led programs that advance safety

technology and payment systems. He champions innovative technology in the hands of forward thinking organizations and people as the key to true mobility. Tim came to GeoToll from OmniAir Consortium and OmniAir Certification Services, two non-profit technology organizations that advocate open standards and interoperability. At OmniAir Tim worked with the toll industry, automotive OEMs, Tier-1 suppliers, RFID and DSRC suppliers and other stakeholders in the private and government sectors in the provision of interoperability testing and certification services.

Before OmniAir, Tim worked for IBTTA as its first Director of Technology Programs where he led the Technology Committee and Next Generation ETC Task Force. Before that Tim worked at ITS America on programs that improve the safety, mobility and reliability of transportation networks. And he began his transportation career at American Trucking Associations where he helped develop policy and advocated for federal freight programs that expedited the deployment of technology to improve freight mobility.

Peter Mills

Tuesday, September 16 | 10:30am

Peter Mills is the executive director for the Maine Turnpike Authority and has held this position since March 2011. He is a founding member of two economic development organizations

and has written extensively on tax, education and health policy. He ran twice for governor in the Republican primaries of 2006 and 2010. Peter served 16 years in the Maine Legislature, and has practiced law in Portland and Skowhegan for more than 30 years.

Denis Mulligan, P.E.

Tuesday, September 16 | 4:00pm

Denis Mulligan is General Manager and CEO of the Golden Gate Bridge, Highway and Transportation District. He leads a complex organization of buses, ferries, and the world's most

beautiful bridge. With just under 850 employees, the District provides service to more than 50 million customers each year plus another 10 million tourists who visit the landmark Bridge each year. Before becoming the General Manager in September 2010, Denis was the District Engineer for almost a decade, responsible for the engineering and construction works of the District. Before coming to work for the District he worked for Caltrans for over 18 years.

Christopher Mwalwanda

Tuesday, September 16 | 2:00pm

Christopher Mwalwanda currently serves as the tolling and public private partnerships (P3) National Technical Strategy Leader for CDM Smith, and is a 2011 IBTTA Leadership Academy

alumni. He has supported over \$13 billion in toll projects and managed over 50 toll feasibility analyses for both private and public agencies over the past decade. His experience and expertise encompasses the full spectrum of toll feasibility from concept to financing, with an emphasis on managed lane projects and owner side risk assessments for several key P3 projects (including SH 130 Segment 5&6, North Tarrant Express, IH 635 LBJ, and the New International Trade Corridor). He currently provides traffic and revenue advisor support services to numerous state DOT's, toll agencies and regional

mobility authorities for projects such as the Mopac Improvement Project (MIP) express lanes in Austin, where he resides, the recently financed \$2.9 billion Grand Parkway SH 99 Segments D-G in Houston, and the ongoing IH 35E managed lanes in Dallas.

Robert Nichols

Monday, September 15 | 2:00pm

First elected to the Texas Senate in 2006, Robert Nichols represents 19 counties including the greater part of East Texas and Montgomery County. In the Texas Senate, Robert serves as Chairman

for both the Transportation Committee and the Select Committee on Transportation Funding. He is also the Vice Chairman of the Intergovernmental Relations Committee. During his four sessions as a state senator, Robert has become a leader in the effort to reform transportation policies and increase state funding. Before running for Senate, Robert served as Texas DOT Commissioner for eight years where he established a reputation for increasing efficiency without compromising quality. Robert is a businessman from Jacksonville, Texas. In his hometown he served on city council, was elected mayor, built four successful manufacturing facilities, earned 32 U.S. patents, 128 foreign patents and created more than 900 jobs for East Texas families. The Senator, as a former major, brought the commitment to local government to the Texas Senate, and became a Champion for the implementation of regional mobility authorities (RMAs) – as he continues to do so.

Katharine Nees

Tuesday, September 16 | 4:00pm

Katharine “Katie” Nees serves as the Deputy Director for the Strategic Projects Division, for the Texas Department of Transportation providing leadership for the TxDOT

Comprehensive Development Agreement (P3) Program consisting of over 30 active projects totaling over \$23+ billion. Before joining TxDOT, Katie served as the Division Vice President for a global engineering firm leading their national practice in P3s, innovative financing and procurement strategies for alternative delivery projects, tolling and managed lanes consulting and advisory services. Katie served many years as the Deputy Executive Director for the North Texas Tollway Authority and began her career with TxDOT’s Dallas district.

Mike Ortegon

Tuesday, September 16 | 2:00pm

Mike Ortegon joined HomeAway in March 2012 and is the Director of Global Sales Operations. In this role he is responsible for supporting sales leaders across the globe with tools,

training and sales insights to help make well-informed business decisions, run effective and efficient teams

while aligning to corporate strategy. Previously, Mike worked for Harte-Hanks for more than 19 years in various positions including acquisition integrations, customer programs focusing on multichannel, data-driven solutions for Fortune 100 companies. Throughout his career, Mike has been in global senior management, operational, sales and marketing roles in North America, EMEA, Latin America, and APAC.

Eric Ploch, P.E.

Wednesday, September 17 | 9:00am

Eric Ploch is Vice President and Senior Division Manager with Atkins North America, Inc. In this role, he is responsible for the overall direction and performance of Atkins’ tolls practice in the central

United States. He has over 25 years of experience in the transportation industry and has worked with several agencies in Texas including the Central Texas Regional Mobility Authority, Camino Real Regional Mobility Authority, North East Texas Regional Mobility Authority, and the Texas Department of Transportation. He is also currently serving on the Board of Directors for the American Council of Engineering Companies (ACEC) of Texas.

Mark Polston

Tuesday, September 16 | 10:30am

Mark Polston is the Deputy Director of the Transportation Infrastructure Finance and Innovation Act (TIFIA) Credit Program. Previously, Mark advised the TIFIA Credit Program as a senior

attorney in the Federal Highway Administration’s Office of the Chief Counsel. Prior to joining the Department, Mark practiced law in the areas of project and real estate finance and international mergers and acquisitions.

Robert Poole

Tuesday, September 16 | 2:00pm

Robert Poole is Director of Transportation Policy and Searle Freedom Trust Transportation Fellow at the Reason Foundation. Bob, an MIT-trained engineer, has advised

the Federal Highway Administration, the Federal Transit Administration, the White House Office of Policy Development and a number of state DOTs on transportation policy. His research papers have helped to introduce into U.S. policy long-term toll concessions, HOT lanes, HOT networks and truck-only toll lanes. He has served on the Caltrans Privatization Advisory Committee, the California Commission on Transportation Investment, the Texas Legislative Study Committee on Private Participation in Toll Projects, and Washington State’s Expert Review Panel on Managed Lanes. He was a member of the TRB special committee on the long-term viability of fuel taxes for highway funding, and is a member of TRB standing committees

SPEAKER PROFILES

on Congestion Pricing and on Managed Lanes. Bob writes a monthly column on transportation issues for Public Works Financing and edits the monthly e-newsletter Surface Transportation Innovations.

Amy Potter, CPA

Tuesday, September 16 | 10:30am

Amy Potter is the Chief Financial Officer for the Transportation Corridor Agencies (TCA), which is comprised of two joint powers agencies responsible for managing the design, planning,

financing, construction and operation of California's largest network of toll roads – State Routes 73, 133, 241 and 261 in central and south Orange County. Amy is a Certified Public Accountant and worked in public accounting for 16 years in the areas of audit, tax, business process improvement and strategic planning before joining TCA in 2004.

Pike Powers

Tuesday, September 16 | 4:00pm

For more than 30 years, Pike Powers has worked to transform Texas into an international center for venture capital and innovation. As an advisor to seven governors and a former member of the

Texas Legislature, Pike helped pioneer such initiatives as the State of Texas' renowned Enterprise Fund and Texas Emerging Technology Fund. He was a co-founder of the Texas Technology Initiative, championing a collaborative approach between the private sector, academia and government. His efforts to drive forward-thinking public-private partnerships, along with significant research and development endeavors, have attracted major employers – including MCC, Sematech, Samsung, AMD and Applied Materials – to the region. In 2008, TechAmerica named him a "Texas Legend." Pike also served as the head of international law firm Fulbright & Jaworski's Austin office for more than 28 years and was recognized four times as one of the National Law Journal's 100 most influential attorneys in the United States. He has also been recognized as a Texas Super Lawyer by Law & Politics magazine and was featured as one of the Best Lawyers in America by the legal profession's oldest peer-review publication.

Jim Ray

Tuesday, September 16 | 2:00pm

Jim joined KPMG Corporate Finance in 2012 as a Principal in the infrastructure practice. Prior to joining KPMG, Jim also served the federal government in various capacities, including

Deputy General Counsel for the White House Office of Management and Budget (OMB) and as Chief Counsel, Deputy Administrator and Acting Administrator for the FHWA. As Deputy General Counsel for OMB, Jim provided legal oversight to the budget and regulatory

activities for a number of Cabinet level agencies, including the Departments of Transportation, Justice, Education and Health and Human Services. With nearly 20 years of leadership experience in the White House OMB, USDOT, at a major US law firm and on Capitol Hill, Jim possesses a keen understanding of the legal, regulatory, policy and business frameworks underpinning P3s, innovative financing and infrastructure. He also brings in depth knowledge and understanding of many federal policy and regulatory matters, such as MAP-21, TIFIA, PABS, New Starts, tolling programs, HOV, SEP-14, SEP-15, and NEPA that typically support P3s and innovative financing for transportation projects.

Malika Reed Wilkins

Monday, September 16 | 10:30am

Malika Reed Wilkins has more than 15 years of marketing, strategic communications, digital media, customer service, and organizational leadership experience. She currently

serves as Director of Marketing and Communications for the State Road and Tollway Authority (SRTA) and has led SRTA to winning a 2014 Silver Anvil Award of Excellence, the 2013 IBTTA Toll Excellence Award for Customer Service and Marketing, an International Telly Award for the Peach Pass GO! Campaign (2012) and the 2012 National Transportation Research Board's Communications Excellence Award. Before onboarding SRTA, Malika served as Director of Strategic Communications and Program Improvement for nearly 20,000 employees for the Georgia Department of Human Services (DHS) and also served as Director of Communications and Public Affairs for the Southern States Police Benevolent Association. Malika currently serves as a Board Member for the Civic League for Regional Atlanta, a Communications Committee member for the Atlanta Regional Commission and a member of the Public Relations Society of America.

Ed Regan

Tuesday, September 16 | 2:00pm

Ed Regan has spent his entire professional career with CDM Smith (and its predecessor company Wilbur Smith Associates), serving the world's toll industry for more than 35 years.

He led the CDM Smith toll practice for almost 25 years, specializing in traffic and revenue forecasting, toll operations, congestion pricing and more. Under Ed's leadership, CDM Smith forecasts have been used in support of more than \$80 billion in toll facility financing, and he has earned the respect of rating analysts, institutional investors and toll agency staff. Ed has been a very active participant in IBTTA activities for more than 30 years. He attended his first IBTTA meeting in 1979, and his first Annual Meeting was our 50th anniversary meeting in Montreal in 1982. He's been a fixture at every

annual meeting since and has participated in more than 50 Association meetings and workshops overall. Ed has served on numerous IBTTA Committees, most recently serving as a co-chair of the Nationwide Interoperability Committee. Other committees include the Government Affairs Committee, and Communications Committee, and he has contributed significantly to various strategic planning efforts for the Association over the years. He also served on the faculty of the Leadership Academy, and on the Tollways Editorial Board.

Hubert Resch

Tuesday, September 16 | 4:00pm

Dr. Hubert Resch is managing director of ASFINAG Commercial Services GmbH, the commercial branch of ASFINAG, the Austrian motorway operator and is currently the project

leader of the EC-project “Regional European Electronic Toll Service (REETS TEN).” Before that, he was Head of the Legal Department. Before ASFINAG, Hubert was assistant professor at the Department of Public Law at the University of Business Administration in Vienna Austria. Hubert worked as an associate at the international law firm Freshfields Bruckhaus Deringer.

Javier Rodriguez, P.E.

Tuesday, September 16 | 4:00pm

Javier Rodriguez has served as Executive Director of the Miami-Dade Expressway Authority (MDX) since March 2007. His primary duties are to oversee all aspects of MDX’s Twenty-

Year Master Transportation Plan, with its current \$503 million five-year work program. MDX’s overriding objective is to serve as an innovative transportation agency dedicated to enhancing mobility in Miami-Dade County. His responsibilities encompass the operation and maintenance of the existing toll road system, its expansion and financing. This includes long-range planning, design, right-of-way acquisition, construction, purchasing and contracting and enhancing relations with its partners: the State of Florida, the Department of Transportation, Florida’s Turnpike Enterprise, Miami-Dade County, Metropolitan Planning Organization, state and local agencies and municipalities. Before joining MDX, Javier worked with the Florida Department of Transportation, District 6 (FDOT) for 16 years, including four years as Director of Transportation Development. Javier will serve as President of IBTTA in 2015.

Shelley Row, P.E.

Monday, September 15 | 4:00pm

Shelley Row founded Shelley Row Associates LLC following a distinguished 30-year transportation career including 25 years with the U.S. Department of Transportation. She worked as a

transportation engineer in Texas, California, Arizona,

North Carolina and Georgia during the 1996 Olympic Games. She finished her federal career in the Senior Executive Service as the Director of the Intelligent Transportation Systems Joint Program Office. Today, Shelley is a sought-after speaker and coach who works with managers and leaders who must make fast, insightful decisions in the face of rapid change when data alone is not enough. Her one-of-a-kind programs are supported by original research. She interviewed 75 leaders on the role of intuition in leadership. Interview results and neuroscience demonstrate the essential role information and intuition play in decision-making.

Massimo Schintu

Monday, September 15 | 8:30am

Massimo Schintu is the Executive Director of AISCAT, the Italian Association of Toll Highways Concessionaires Companies and the 1st Vice President of ASECAP, the

European Association of Toll Highways Concessionaires Companies. He is a Transportation Engineer with a deep knowledge and expertise in highway planning, management and operation acquired during more than 20 years activity in AISCAT. Massimo is in particular well acquainted with all the issues related to highways’ concessions (technical, economic and financial, administrative and legal aspects), quality and safety standards, tariff analyses and studies, tolling systems, preparation of business plans, as well as to other road transportation items. He is also the representative – both for AISCAT and for some Italian Institutions – for planning of the European transportation system and he collaborated to studies and researches in the transportation sector at European Community level. He is the Italian Member of the International Executive Committee of AIPCR-PIARC (World Road Association), Member of the Editorial Committee of the magazine “leStrade” - the main Italian technical information magazine dedicated to transport infrastructure - and Permanent representative in the Technical Committee “Infrastructure, Logistics and Mobility” within CONFINDUSTRIA.

Mary Scott Nabers

Wednesday, September 17 | 11:00am

Mary Scott Nabers is President/CEO of Strategic Partnerships, Inc. (SPI), a unique public affairs firm that specializes in procurement consulting, market research, government affairs

and public-private partnerships (P3s). Mary is also co-founder of the Gemini Global Group (G3), a firm that works with national and international clients on business development, P3s and other types of government objectives. A recognized expert regarding P3s, Mary is the author of Collaboration Nation – How Public-Private Ventures Are Revolutionizing the Business of Government. In addition to her work with Strategic

SPEAKER PROFILES

Partnerships and the Gemini Global Group, Mary is a partner at Capital Factory, an incubator and ecosystem for technology start-up firms.

Craig Shuey

Tuesday, September 16 | 10:30am

Craig Shuey was appointed as the Pennsylvania Turnpike's Chief Operating Officer by the Commissioners in 2011. In this role, Craig is responsible for oversight, management and

planning for the day-to-day operation of the 545 miles of Turnpike, the majority of its 2,000 employees and multiple facilities including 65 toll-collection facilities, 27 maintenance facilities and 17 service plazas. Craig also serves as the Commission's program lead for the All-Electronic Tolling program. He joined the Pennsylvania Turnpike Commission as Government Affairs Director in August 2009 after 15 years with the Pennsylvania Senate. Before joining the Turnpike Commission, Craig served as Executive Director of the Senate Transportation Committee for two chairmen – Senator Robert C. Wonderling and Senator Roger A. Madigan. He held this post from 2001 through July 2009. During his career Craig has served as an advisor on a wide variety of transportation-related policy issues ranging from public safety and vehicle code issues to freight movement and aviation matters.

Phil Silver

Tuesday, September 16 | 2:00pm

Phil is director of business development for Urban Insights, responsible for managing industry engagement around the firm's consulting services and technology offerings. He brings nearly

25 years' experience of new market development in both the public and private sectors, and speaks regularly on developing new multi-modal urban mobility models that combine traveler convenience with real-time predictive demand management tools for operators and authorities. At Urban Insights, he is working to empower organizations to identify desired outcomes and then use advanced business analytics to gather, comprehend and act on previously disaggregated data to achieve outcomes that enable data-informed insights for improving operations, reducing cost and better serving the needs of urban travelers.

Evan Smith

Wednesday, September 17 | 11:00am

Evan Smith is the Editor in Chief and CEO of The Texas Tribune, a nonprofit, nonpartisan digital news organization recently called "one of the nonprofit news sector's runaway success stories."

The Tribune's deep coverage of Texas politics and public policy can be found at its website, texastribune.org; in the pages of the New York Times; and in newspapers

and on TV and radio stations across the state. Since its launch in 2009, the Tribune has won international acclaim and numerous honors, including nine Edward R. Murrow Awards from the Radio Television Digital News Association, two general excellence awards from the Online News Association, and IRE's Gannett Award for Innovation in Watchdog Journalism. Before co-founding the Tribune, Evan spent nearly 18 years at Texas Monthly, including eight years as Editor and a year as President and Editor in Chief. On his watch, Texas Monthly twice won the National Magazine Award for General Excellence.

Samantha Soules

Tuesday, September 16 | 10:30am

For the last 10 years, Samantha Soules has implemented tolls for several national agencies and projects as a consultant for project delivery, program management, marketing

and communications, organizational development and strategic planning. She currently serves as Atkins' project manager for the toll systems implementation on the Bay Area Express Lanes Network. Her experience began with supporting TxDOT on their first toll deployment (the Central Texas Turnpike) from which she went on to provide services for statewide program development and interoperability initiatives. Since then, her leadership and expertise have been applied to ITS, all-electronic tolling, and managed lane projects in Washington state, Vancouver (BC), northern and southern California, Colorado, Florida, and Texas, serving agencies of all sizes, from large DOTs to emerging mobility authorities. A UT Austin alumnus (hook 'em Horns!), Samantha was born and raised in Texas but now hangs her ten-gallon hat in the Bay Area of northern California.

Todd Spence

Tuesday, September 16 | 2:00pm

Todd Spence is a Director in the U.S. Public Finance Infrastructure group focusing on transportation issuers including toll roads, ports, airports, GARVEE bonds, parking and mass

transit farebox revenue bonds. He has been with Standard & Poor's since June 2010 and also has 12 years of experience covering transportation issuers as a banker and financial advisor.

J.D. Stanley, III

Monday, September 15 | 4:00pm

J.D. a 16-year veteran of Cisco, with over 20 years in the IT industry. J.D. has global responsibility for pioneering analytics research, solution design, and insight services. For over 12 years J.D. has

performed as CTO across numerous applied research areas championing cross-sector and cross-discipline system of systems disruptive innovations, transformative business architectures, and decision science effect-based operations

– focused on intersections of cognitive behavior for social networking and decision making, distributed networks, autonomic systems, and swarming of humans, machines, and sensors.

Emanuela Stocchi

Monday, September 15 | 10:00am

Emanuela Stocchi is an expert in EU legislation and policies and she is responsible for the EU and International Affairs in AISCAT (Italian Association of Toll Highways Concessionaires

Companies). In this role she ensures the Association's contacts with the EU Institutions and other European and International organizations are active participants in the transportation field. Emanuela is a member of the ASECAP (European Association of Toll Highways Concessionaires Companies) Board, Vice Chair of ASECAP Permanent Committee of Road Safety, Environment and Sustainability. She is IBTTA's International Vice President and a member of the PIARC (World Road Association) committees on infrastructure financing and road terminology.

Michael Tamer

Tuesday, September 16 | 2:00pm

Michael is the CEO of Tamer Partners Corporation (TPC). TPC is a leader in customer experience management within the tolling industry and also in the private sector. TPC's customer

driven management solution Bouquet helps organizations synchronize with their customers for higher performance through mystery driver programs and Customer Experience Management. A 20-year veteran of the customer contact industry, Michael authored the book, *The Four-Minute Customer*, outlining his Customer Relationship Management philosophies and keys to world class sales and service. These tenets have continually helped all types of organizations increase customer loyalty, improve service and raise sales revenues.

Raymond Telles

Tuesday, September 16 | 4:00pm

Raymond Telles is the Executive Director of the Camino Real Regional Mobility Authority (CRRMA) in El Paso, Texas. Before the CRRMA, Raymond served as an Assistant City Attorney for the City of

El Paso with focus areas that included the transportation, transit, engineering and aviation divisions. In 2007, Raymond was involved in the creation of the agency and provided initial legal services to the CRRMA. Upon appointment as the first Executive Director of the CRRMA in 2008, Raymond has guided the agency's involvement in various major transportation projects in the El Paso region, including: the area's first Pass-Through Toll Project (State Spur 601); a major interchange at Interstate 10 and Loop 375 (Americas Interchange); the design and installation of a toll collection system for the area's

newest international bridge (Tornillo-Guadalupe Port of Entry); and the area's first Managed Lane Project (César Chávez Express Toll Lanes). The CRRMA is working with area agencies on additional innovative approaches to congestion mitigation in the El Paso area, including new toll lanes, international bridge tolls, parking facilities, streetcars and bike share programs.

Kevin Thibault, P.E.

Tuesday, September 16 | 10:30am

Kevin Thibault is a vice president with Parsons Transportation Group and serves as the firm's global toll leader.

With more than 29 years of professional engineering experience in the public and private sectors, Kevin has a wealth of expertise as a consultant and a customer. He has strong experience working with elected officials and presenting concepts, and he works closely with customers to develop strategies for new toll implementation and policy revisions for existing facilities, allowing for expansion and deployment of new technology. Before joining Parsons, Kevin served as the interim executive director of Florida's Turnpike Enterprise, the state's largest toll entity and a unit within the Florida Department of Transportation (FDOT). He has also held positions within FDOT such as the assistant secretary for engineering and operations, where he functioned as the agency's chief operating officer overseeing more than 7,100 employees and an annual budget in excess of \$6 billion, and as the production/planning director of Florida's Turnpike. Kevin served on the board of the IBTTA and is past chairman of the Floridians for Better Transportation board. He is a member of the National Society of Professional Engineers, the Florida Engineering Society and the American Society of Civil Engineers.

Pat Thomas

Tuesday, September 16 | 8:45am

Pat Thomas is Vice President of Global Public Affairs for UPS and oversees all state legislative, regulatory and political activities for the U.S. He directs a team of state and local public affairs managers

across the country and oversees the UPS Congressional Awareness Program, a comprehensive grassroots program designed to strengthen UPS's relationships with Members of Congress in their home district. Pat began his UPS career in 1985 as a seasonal delivery driver.

Christopher Tomlinson

Tuesday, September 16 | 2:00pm

Christopher Tomlinson serves as the Executive Director for the State Road and Tollway Authority (SRTA) – the State of Georgia's toll operator and transportation bond financing

authority. In addition to managing toll operations and bond financing, SRTA manages the Georgia Transportation Infrastructure Bank, a revolving

SPEAKER PROFILES

infrastructure investment fund that awards grants and provides loans with attractive terms to fund eligible transportation projects. As Executive Director, Chris oversees management of a \$1.4 billion bond debt portfolio, the proceeds of which fund projects built by the Georgia Department of Transportation (GDOT). He also serves as his agency's primary liaison to GDOT's P3 program and is a member of the IBTTA Board of Directors. Before being appointed Executive Director, Chris served as Deputy Executive Director and General Counsel for SRTA. In such capacity, he was responsible for to day to day operations and legal issue management for SRTA.

Theresia Trevino, CPA

Tuesday, September 16 | 10:30am

Theresia Trevino is the Chief Financial Officer of the Riverside County Transportation Commission with responsibilities including financial, budget, procurement, investment, and debt management. She manages the self-help sales tax financing program (Measure A) and the toll revenue financing program for the SR-91 Corridor Improvement Project (91 Project) in Riverside County. She has implemented a commercial paper program, executed interest rate swaps, and issued sales tax revenue bonds that include variable rate debt and Build America Bonds. In July 2013, she financed the \$1.3 billion 91 Project, which will extend the SR-91 Express Lanes into Riverside County, add a general purpose lane, and include other improvements. Throughout her career, Theresia's focus has been serving Southern California governmental entities.

James Trogdon, P.E.

Tuesday, September 16 | 2:00pm

Jim Trogdon serves as Vice President Business Development Mid-Atlantic at Atkins. Previously, Jim served on the Board of IBTTA and was the Chief Operating Officer for the North Carolina Department of Transportation and has more than 24 years experience in the field of transportation. He was instrumental in final finance and delivery of the Triangle Expressway by NCDOT and NC Turnpike Authority as an all electronic toll (AET) project utilizing toll transponders and video license plate (Bill by Mail) tolling. Jim led the agency effort in delivery of first AET managed lanes public-private partnership project (P3) on I-77 near Charlotte, NC and managed the largest state maintained transportation system in the nation from 2009-2013. He was selected by United States Secretary of Defense to command all Department of Defense assets in support of Federal Agencies to provide security and contingency response to the National Special Security Event, Democratic National Convention in 2012 – Charlotte, NC. Major General Trogdon is the Deputy Adjutant General North Carolina National Guard.

Jim Tymon

Tuesday, September 16 | 10:30am

Jim Tymon is the Director of Management and Program Finance at the American Association of State Highway and Transportation Officials (AASHTO). Jim works closely with State Departments of Transportation to develop and evaluate transportation finance and program funding proposals. Jim also serves as AASHTO's Chief Operating Officer overseeing the management of the Association's internal operations. He joined AASHTO in December 2013. Prior to AASHTO, Jim was the Staff Director of the Highways and Transit Subcommittee of the House Transportation and Infrastructure Committee and served as Senior Advisor to Chairman Bill Shuster. As Staff Director, Jim managed the Subcommittee responsible for writing authorizing legislation for the Federal Highway Administration, the Federal Transit Administration, the National Highway Traffic Safety Administration, and the Federal Motor Carrier Safety Administration. Jim was the Committee's lead staffer for the development of MAP-21 – the surface transportation bill signed into law in 2012. Jim was also the primary staff person responsible for the Highway and Highway Safety titles in SAFETEA LU – the surface transportation bill signed

Joseph Waggoner

Tuesday, September 16 | 10:30am

Joe Waggoner is the Executive Director for Tampa-Hillsborough Expressway Authority (THEA). During his tenure, THEA has significantly improved the maintenance, operations and financial position of the agency. The 2010 conversion of the Lee Roy Selmon Expressway to all-electronic tolling made it Florida's first expressway to be completely electronic. His education and more than 33 years of experience in the development of a variety of transportation modes have given him a broad perspective on transportation issues. Before joining THEA, Joe was the Chief of Planning and Development for the Maryland Transportation Authority, which oversees capital programs for Maryland toll facilities. This included Maryland's Transportation Public-Private Partnership Program. Joe currently serves on the IBTTA Board of Directors.

C. Michael Walton, Ph.D., P.E.

Monday, September 15 | 4:00pm

Dr. C. Michael Walton is Professor of Civil Engineering & holds the Ernest H. Cockrell Centennial Chair in Engineering at The University of Texas at Austin. Dr. Walton researches intelligent transportation systems & intermodal freight logistics in addition to trans. systems engineering, planning, operations & policy analysis. Dr. Walton was elected a member of the National Academy of

Engineering in 1993. In other professional society affairs he is a past Chair of the Board of the American Road & Trans. Builders Association, past President of the Board of Governors of the Tran. & Development Institute of the American Society of Civil Engineers, a founding member & past Chair of the Board of Directors of the Intelligent Transportation Society of America & a past Chair of the Transportation Research Board Executive Committee. He has contributed to more than 500 publications in the areas of ITS, freight transport, & transportation engineering, planning, policy & economics.

Ben Wear

Tuesday, September 16 | 4:00pm

Ben Wear covers transportation for the Austin American-Statesman. An Austin native and UT graduate, Ben has worked for the Statesman since 1994 and had the transportation beat since 2003.

He also teaches journalism as an adjunct professor and, in the fall, is a football official for everything from Pop Warner to high school games.

J.F. Weber

Monday, September 15 | 8:30am

LtGen Joe Weber, USMC, (Ret) serves as executive director of the Texas Department of Transportation. Under the direction of the Texas Transportation Commission, he is responsible for the

strategic direction and overall management of TxDOT's policies and operations. He maintains relationships with elected leaders all over the state and represents TxDOT before the Texas Legislature. Prior to TxDOT, Weber served as vice president for Student Affairs at Texas A&M University, where he was responsible for the oversight of more than 900 student organizations and activities and all co-curricular student services and support associated with student development and success. In his 36 years in the United States Marine Corps, Weber served in numerous command and leadership positions throughout the United States and overseas. Weber honed his management and leadership skills on and off the battlefield, where he trained, educated and prepared thousands of Marines, Sailors, Soldiers and Airmen for combat across the world theater. During those assignments, Weber also was responsible for the supervision of a variety of infrastructure projects which included road, port, aviation and rail systems to include their associated maintenance and upkeep.

Kathleen Weiss

Tuesday, September 16 | 4:00pm

Kathleen Weiss has been with the Ohio Turnpike and Infrastructure Commission since 2003 and was appointed to her current position as General Counsel in 2011, overseeing

all of the Commission's legal affairs. Previously, Kathleen served as the Commission's Director of

Contracts Administration and Governmental Affairs. Kathleen held the position of Chief Legal Counsel for the Ohio Lottery Commission from 1991 to 2003. Before that, she practiced law at the Cleveland firm of Arter & Hadden. While completing her legal education during the 1980's, Kathleen also worked in the Office of Governmental Relations at Cleveland State University. She has also worked as a legislative aide in the Ohio State Senate, and participated in the Ohio Legislative Services Internship Program and various other internships in Washington, DC.

Ray Wilkerson

Sunday, September 14 | 1:30pm

Tuesday, September 16 | 8:30am

Ray Wilkerson is the president and CEO of Ray Wilkerson Companies, Inc., a real estate investment firm. He is currently Chairman and Presiding

Officer of the Central Texas Regional Mobility Authority appointed by Governor Rick Perry. He is a board member of Colorado River Foundation Tributary League Endowment and Board Member of the Colorado River Land Trust. Among his many civic activities, he is a founder and board member of the HeartGift Foundation which has provided life-saving heart surgery for over 175 children from 25 countries. Ray is former Chairman of the Lower Colorado River Authority (LCRA), appointed by Governor Rick Perry. He was honored by LCRA through the dedication of the Wilkerson Center for Colorado River.

P.J. Wilkins

Tuesday, September 16 | 4:00pm

P.J. Wilkins has over 35 years' experience in various segments of the transportation industry. P.J. currently serves as Executive Director of the E-ZPass Group, the world's largest

electronic toll collection system. Previously, P.J. served for more than 10 years as Toll Operations Administrator for the Delaware Department of Transportation where he was responsible for the operation of the Department's two toll roads, the Delaware Turnpike on I-95, and State Route 1. He was also instrumental in establishing the Department's electronic toll collection program, which has been widely recognized as one of the top customer service center operations in the industry and the recipient of numerous national and international awards. P.J. has played an active role in IBTTA since 1999 and served on its Board of Directors from 2005 to 2009. He has also served on the Board of Trustees for the Alliance for Toll Interoperability (ATI), and currently serves on the Board of Directors of the OmniAir Consortium.

SPEAKER PROFILES

Jim Wilson

Wednesday, September 17 | 9:00am

Jim Wilson is a Senior Vice President at TransCore in Orlando, FL with twenty years of industry experience. He is a certified Project Management Professional and holds a Masters of

Science in Project Management from the University of Wisconsin – Platteville. He specializes in project delivery, operations management, and business development, and is the Chair of the IBTTA Roadway Operations Committee.

Pete Winstead

Monday, September 15 | 2:00pm

Pete Winstead is a founding shareholder of Winstead PC. His early professional career was in the field of federal taxation and related matters, and as a former chair of the Section of Taxation, State

Bar of Texas, he remains active in advising clients on many corporate and business transactional matters, but primarily in a planning strategies role. In 1997, Pete was appointed by Governor Bush to be the first chair of the Texas Turnpike Authority (TTA). During his tenure at TTA, he led efforts in getting Records of Decision on the four element toll road (SH 130, SH 45, Loop 1 and US 183A) project known as the Central Texas Turnpike Project. Pete also led efforts on a \$800 million TIFIA loan, as well as negotiated over \$600 million in local contributions for the right-of-way and utility relocations. He was one of the founders and first Chair of the Capital Area Transportation Commission (CATC) to involve the private sector in effective advocacy for toll roads and other highway infrastructure. Additionally, Pete chaired the Citizens for Mobility effort to secure approval of the Phase 2 toll road plan at CAMPO, as proposed by the CTRMA and TxDOT. As a founder of the firm's Austin office, he has become active in working with early stage and "start-up" companies that need appropriate mentoring on financial backing, management procurement and legal matters.

Kary Witt

Tuesday, September 16 | 10:30am

Kary Witt is the manager of the Golden Gate Bridge in San Francisco, California. In this high profile position, he is responsible for the day-to-day operation and maintenance of the world

famous span. At the Golden Gate Bridge for more than 24 years, in 2000, Kary oversaw the development and implementation of Electronic Toll Collection, followed in 2013 with the transition to All-Electronic Toll Collection. He has led the development and implementation of state-of-the-art maintenance practices on the Bridge. With 14 unions representing the workers at the Bridge, he is well versed in complex labor matters. Kary has

gained significant recognition for his work in the area of infrastructure security and was appointed to an FHWA sponsored Blue Ribbon Panel on Bridge and Tunnel Security in 2003. Kary is a former IBTTA President. He has led a number of IBTTA's initiatives over the years, including his role as Founding Chairman of the IBTTA Leadership Academy.

Abenezer Yohalashet

Tuesday, September 16 | 4:00pm

Abenezer Yohalashet is Founder of Pay Toll-O, a mobile app to give people the ability to instantly purchase tolls and public transportation fares directly from their smartphone devices. Pay Tollo is the first product by Global Payment Group LLC, which strives to be the premier mobile payment platform for smart cities of tomorrow.

Johanna Zmud

Monday, September 15 | 4:00pm

Johanna Zmud is a division director of a Washington office for the Texas A&M Transportation Institute. Before her current role, Johanna was director of the RAND Corporation Transportation,

Space, Technology Programme. She continues to serve as an adjunct at RAND. She is a senior executive who built and successfully managed an internationally prominent transportation research practice, NuStats, LLC. She is also a visionary who partnered to set up a mobility technology firm, GeoStats, LLC, for the capture of travel behaviour information. She is an internationally acknowledged innovator in bridging transportation research, information and technology. She has achieved nearly 30 years of experience in improving data and analysis for policy and planning decision-making for passenger and freight sectors.

Mia Zmud

Tuesday, September 16 | 10:30am

Mia Zmud, Principal at Metropia, Inc., has over 25 years of experience in the transportation and environmental industries, with specialization in travel behavior and the use of technology

to facilitate research, engagement, and mobility management decisions. At Metropia, she leads business development and manages deployment of the Metropia Mobile and Synergy Platform in Austin, Texas. Before Metropia, Mia was the Director of Research and Business Development for NuStats for 14 years and, for 12 years, managed environmental programs for the U.S. Environmental Protection Agency in Washington, D.C. Mia is a member of TRB committees on Public Involvement in Transportation and Transportation Planning for Small and Mid-Sized Communities.

Download the IBTTA Meetings app!

The IBTTA Meetings App is now available on the App Store, Google Play and the Amazon App Store – and it's FREE! The IBTTA Meetings app for iPhone, iPad and iPod touch, as well as Android devices, is designed to assist and enhance your IBTTA meeting experience.

- You can use the My Schedule feature to organize and display your schedule and itineraries.
- The Dashboard feature provides up-to-the-minute Exhibitor, Speaker and Event information along with their locations and session descriptions.
- You can take and store notes on the sessions you attend.
- The Alerts feature provides important real-time communications from the IBTTA staff.
- You can keep up with industry news on LinkedIn and Facebook groups, and with the built-in Twitter feed, you can follow and join in on conversations.

Visit the App Store, Google Play or the Amazon Appstore on your device and search for "IBTTA" and download it today.

Reputations are built.

A company should be measured by what it accomplishes, not by what it promises. Today, with the capability to bring our expertise across all aspects of a project's life cycle—whether it's design-build or operations and maintenance—our goal remains the same. To help our customers succeed. Which is why for surface transportation projects, more agencies are turning to us to get it done. We are URS.

Adopt A Highway[®] maintenance corporation The Adopt A Highway Maintenance Corporation (AHMC) facilitated the program model for the public and private arena by creating the “The Sponsor A Highway” program. This program provides state transportation managers to benefit from local companies a way to fund consistent right of way litter removal services in exchange for a sign recognizing their contribution. The process allows a company to sponsor a one mile segment of high volume roadway and contract with AHMC to provide all the cleaning required by the transportation agency. The Sponsor A Highway maintenance program is currently operating in 20 states, creating a presence on Toll Roads and Interstate highways throughout. Our professionally trained and fully insured maintenance crews have safely and consistently been providing litter removal maintenance on high volume roadways throughout the country for over 25 years with no additional cost to our state transportation agencies. www.adoptahighway.com
