

Improving Incident Management and Traveler Information Through Data Partnerships: Waze Case Study

Bob Taylor, PE, PTOE

Manager of Traffic Operations

Pennsylvania Turnpike Commission

t0	t1	t2	t3	t4	t5	t6
Incident occurs	Incident reported to TOC	Arrival on scene	On-scene response/travel advisory	All travel lanes open	All responders have left the scene	Traffic conditions normal

Detection	[Green bar from t0 to t1]					
Notification <i>(Verification, Dispatch)</i>	[Orange bar from t1 to t2]		[Grey bar from t2 to t6]			
Arrival <i>(Size-up, Report to TOC)</i>	[Orange bar from t1 to t2]		[Yellow bar from t2 to t4]		[Grey bar from t4 to t6]	
Response activities <i>(Triage, Command, Traffic Management, Plan X)</i>	[Orange bar from t1 to t3]		[Yellow bar from t3 to t5]		[Green bar from t5 to t6]	[Grey bar from t6 to end]
Clearance & Termination	[Grey bar from t0 to t3]			[Yellow bar from t3 to t4]	[Yellow bar from t4 to t5]	
Recovery	[Grey bar from t0 to t5]					[Green bar from t5 to t6]

*There are **known knowns**. These are things we know that we know.*

*There are **known unknowns**. That is to say, there are things that we know we don't know.*

*But there are also **unknown unknowns**. There are things we don't know we don't know.*

-Donald Rumsfeld

**The Pennsylvania Turnpike
Commission's Adoption
of the
National Unified Goal of**

TRAFFIC INCIDENT MANAGEMENT

MISSION

To operate a safe, reliable, customer-valued toll road system that supports national mobility and commerce.

- 1. Focus on the safety of yourself, all first responders and our customers**
- 2. Clear the road as quickly and safely as possible**
- 3. Provide prompt and reliable communications**

Data Feeds

WAZE XML Feed	ENS XML FEED - existing output
1. Event Id (M): Each event must have its unique ID. Once event is created, only the relevant content description field may be updated. If event's location is changed, the new event must be created instead.	<eID>171216</eID>
2. Type (M):	<e_Type>T</e_Type>
3. Sub Type (O)	<e_Title>
4. Start_date (M): Relevant event start time in YYYY-MM-DD HH:MM GMT format	<e_Added>
5. Update_date (O): Additional event related time stamps (if exist)	<e_Updated>
6. End_date (O): Additional event related time stamps (if exist)	
7. Description (M): Textual description of event details (limited by 200 characters)	</e_Summary> <e_Narrative> <e_TTStext>
8. Severity (M): Severity level of event, one of the following: "MINOR", "MAJOR", HEAVY"	<e_Speed>Stopped or Slow Moving</e_Speed>
9. Location (M): Information related to event location	<e_StartMP>
9.1. Street (M): Name of street on which event is occurring	available
9.2Latitude/Longitude (M): Event location coordinates in WGS84 format for either a single location or a range (from, to) are mandatory. They will be correlated with the street related attribute fields for matching to map location.	<e_StartLatLon
9.3. Direction (M): Direction of travel affected by event.	<e_Direction>E</e_Direction>
9.4. Specify End (O): In case of a lengthy event, the end location may be specified	<e_EndMP>
9.4.1. From Cross Street (O): Name of street intersecting with starting point location	<e_StartIC>
9.4.2. End Cross Street (O): Name of street intersecting with end point location	<e_EndIC>
9.4.3 End Latitude/End Longitude (M): End location of event with coordinates in WGS84 format.	<e_EndLatLon>

Waze Baby

Welcome to the world, Wazer! You're a baby for now, until you've driven your first 100 miles.

Waze GrownUp

All grown up! You can pick a custom mood for your Wazer.

Waze Warrior

You're in the top 10% of high scorers in your State. Drive around with a shield.

Waze Knight

You're in the top 4% of high scorers in your State. Fight traffic with a sword.

Waze Royalty

You're in the top 1% of high scorers in your State. Ride in style with a crown!

Phase 1 Implementation

Major Traffic Event Form

Partner submissions for events, closures, and regulatory changes

* Required

Partner organization *

This is a required question

Email address *

You can also submit your closure directly to Closures@google.com

What are you reporting about? *

- Planned traffic event (ex: sporting event, festival, VIP visit)
- Construction-Related Closure(s)
- Regulatory change (ex: speed limit change, changes in turn restrictions)
- Other

- Planned Plan X's sent to Waze. **This is done by the Manager of the Operations Center or a Duty Officer.**
- Unplanned Plan X's sent to Waze. **Considered only for major events lasting greater than 2 hours.**
- Closures, planned events, regulatory changes and other updates shared.

PennDOT Waze Alerts

A new alert has been received from the Waze data feed for District 8.

Report Time: 5/6/2016 3:42:37 PM (0 minutes ago)

Type: ACCIDENT_MAJOR

Report Description: N/A

City: Lemoyne, PA

Street: Exit 41A: SR-581 W / to I-81 S / Camp Hill

Incident Reliability *: 5

Report User Rating *: 3

Waze Alert ID: c3b49101-397c-36ff-9e25-07ce0d70744a

Links: [Waze Live Map](#) | [Google Map](#)

*: Incident Reliability from 0 to 10, 10 being most reliable, is based on the report user's rating and subsequent user responses.

*: Report User Rating from 0 to 6, 6 being highest, is a ranking based on a points accumulation system.

These notifications are automatically generated from PennDOT's Waze Alerts System.

If you have questions or concerns regarding these notifications, please email our [Resource Account](#) for assistance.

Type: Waze - Disabled Vehicle

Description: Car on road stopped

Location: I-10 EB beyond MM 196

Time: 07-05-2013 17:07
