

Sustainability & Resilience Task Force Meeting

March 13, 2023

Today's Agenda

- Welcome and Introductions
- 2. A Review of 2023 Member Survey Results: Understanding Interests and Available Resources

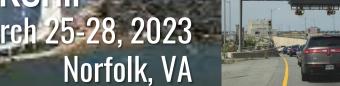

- 3. Proposed 2023 Task Force Working Groups
- 4. Discussion of IBTTA Climate Action Principles Effort
- 5. Welcome New Task Force Members form the Emerging Technologies Committee Zero Emissions Vehicles and Fuels
- 6. Other Discussion

COMMUNICTAIONS, HR & LEGAL WORKSHIP

March 25-28, 2023

Upcoming Events

TECHNOLOGY SUMMIT
April 29-May 2, 2023
Indianapolis, IN

ROAD USAGE CHARGING & FINANCE SUMMMIT

June 4-6, 2023, 2023

Salt Lake City, UT

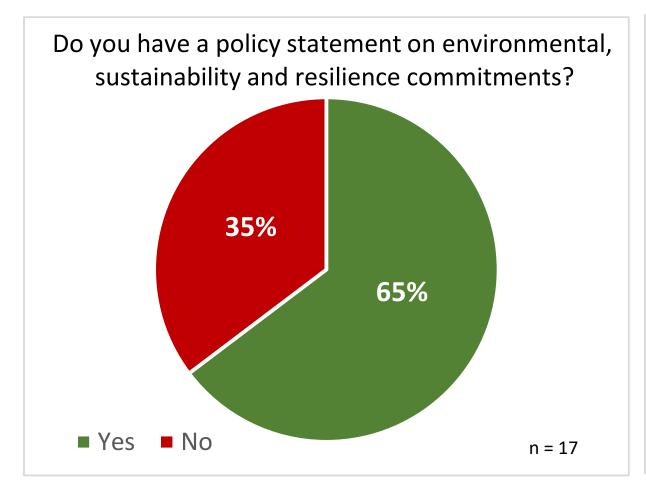

2023 Member Survey Results

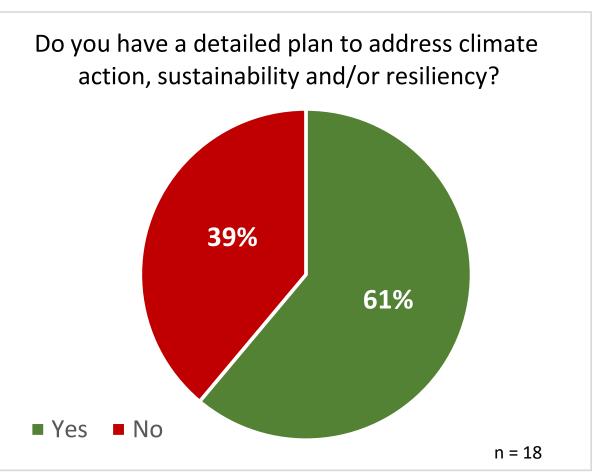

1. → Does-your-organization-have-a-formal-statement-of-policy-that-addresses-environmental, sustainability-and-resilience-commitments? ¶ Yes	1	Ing. Moving SMARTER. Survey-of-Task-Force-Members¶

S&R Topics of Greatest Interest

Proposed Task Force Engagement with IBTTA Members

How would you like the Sustainability & Resilience Task Force to engage with IBTTA members? Best practices and lessons learned (i.e., what has worked and did not work?) Create an IBTTA statement of Climate Action Principles 14 Webinars and virtual information exchanges 14 Sessions or workshops during IBTTA in-person conferences Identify partnerships with other professional organizations 12 Develop an action plan for climate action, sustainability, and 10 resilience White papers and policy position statements Face-to-face meetings or roundtables on specialized topics at **IBTTA** events Expand resource library on the IBTTA website 10 12 18 14

Top Four Desired Task Force Achievements for 2023

- 1. Information Exchange and Resources
 - Resource library of best practices, case studies, and current information
 - Webinars and virtual meetings on hot topics
 - Dedicated sessions at IBTTA in-person meetings
- 2. Climate Action Principles and Plan
- 3. Communications and Member Awareness
 - Serve as a catalyst and champion for S&R issues within IBTTA
 - Small discussion groups on specific topics for problem solving and learning
 - Outreach to partners (e.g., professional and international organizations, NGOs, technology firms, private companies and vendors)
- 4. Data and Performance Measures
 - Establishing baseline performance for improvement plans and monitoring
 - Best practice in KPIs, metrics, and target setting
 - Use of data in program development and project slection

Topics of Interest from Survey Respondents

- Energy
 - > Energy reduction and conversation measures
 - Renewable energy resources
 - Charging and energy infrastructure
- Environmental, Social & Governance (ESG)
 - Practical and simple ESG tool for toll operators
 - Guidelines for addressing ESG topics
 - Case studies for ESG efforts in tolling
- Emissions Reduction Practices
 - Addressing Scope 3 emissions
- Supply Chain and the Circular Economy
 - Best practices and case studies
 - Business case analysis and cost-benefit rationale

Sustainability & Resilience Task Force: Proposed 2023 Working Groups

	Working Group	Scope	Examples & Goals
1	Performance Measurement and Metrics: Using Data to Drive Program Development Emissions Valuation. S&R KPIs and Best Practices. ESG Reporting.	Assist members identify and measure their sources of GHG emissions (Scope 1, 2 and 3). Sustainability Toolkit. Identify and Share Best Practices. We cannot fix what we cannot measure.	Be able to identify and know our business carbon footprint sources and impact. Set the baseline (starting point) and the emissions reduction goal we aim to achieve (e.g.: roadmap towards carbon neutral).
2	Zero Emissions Vehicles: Vehicle Electrification and Alternative Fuels EV Adoption & Charging Infrastructure Deployment. The Future of Other Alternative Vehicle Fuels.	Assistance in business case and cost-benefit analyses. Tips and best practice in project prioritization and selection. Project development considerations. Partnership potential. Understanding risk.	Provide input and advice to government agencies and policy makers and influence requirements. Identify revenue sharing approaches and considerations for business agreements. Help toll operators make wise investments and create customer value.

Sustainability & Resilience Task Force: Proposed 2023 Working Groups

	Working Group	Scope	Examples & Goals
3	Policy &		
	Communications	Develop Task Force website page.	Organize webinars for all IBTTA members
	S&R Education and	Promote/organize S&R initiatives within IBTTA	IBTTA conference contents and sessions
	Information Exchange.	events.	Seek relevant conference exhibitors
	Increase TF Exposure and	Develop repository of S&R documents, policies,	Consider an IBTTA S&R Award
	Promote Events	and other resources.	Organize an S&R library of documents, policies, and
	S&R related	Assist members in navigating through S&R	guidance
	documentation and	legislation and regulations.	Identify programs available to members looking to
	resources.	Support access to grants and other resources.	adopt S&R policies and strategies
4	Resiliency &		
	Construction		
	Planning practices and	Assistance in business case and cost-benefit	Coordinate with IBTTA's Procurement Working Group
	policy.	analyses.	and Engineering & Construction Task Force.
	Readiness, response, and	Integration with asset management plans.	Identify revenue sharing approaches and
	mitigation measures.	Tips and best practice in project prioritization	considerations for business agreements.
	Design standards and	and selection.	Expand knowledge of the circular economy and supply
	practices for future	Sustainable project delivery and carbon neutral	chain management.
	conditions.	construction practices.	Help toll operators make wise investments and create
	Transportation network	Partnership potential.	customer value.
	considerations.	Understanding risk.	

Proposed IBTTA Climate Action Principles Document

IBTTA's Board of Directors has endorsed the development of a statement of principles on climate action. We seek to have IBTTA's principles address:

- High priorities that can be messaged simply.
- Focus on mobility, not just roads but also how toll facilities fit within a multimodal network.
- Address sustainability and resilience as separate topics for action.
- Consider a balanced view that addresses all aspects of ESG concepts.
- Identify actions for the Association to undertake to support its members.
- Produce a set of principles in 2023 that we share internationally in November.
